| <b>Summary of types</b> . . . . .                          | 7    |
| <b>Index of ordering codes</b> . . . . .                   | 13   |
| <b>Marking system</b> . . . . .                            | 19   |
| <b>Cross reference index</b> . . . . .                     | 22   |
| <b>Technical information</b> . . . . .                     | 25   |
| Type designation in accordance with Pro Electron . . . . . | 25   |
| Terms and symbols (DIN 41 785) . . . . .                   | 26   |
| Standards . . . . .  | 27   |
| Maximum ratings . . . . .                                  | 28   |
| Characteristics . . . . .                                  | 28   |
| Thermal resistances . . . . .                              | 28   |
| <b>Quality specifications</b> . . . . .                    | 31   |
| Definition of defects . . . . .                            | 31   |
| AQL values . . . . .                                       | 31   |
| Sampling plan for normal inspection . . . . .              | 32   |
| <b>Package outlines</b> . . . . .                          | 34   |
| <b>Mounting instructions</b> . . . . .                     | 35   |
| Mode of delivery (packing) . . . . .                       | 35   |
| Blister tape . . . . .                                     | 36   |
| PCB layout . . . . .                                       | 41   |
| Glueing . . . . .  | 42   |
| Connecting methods . . . . .                               | 42   |
| Evaluation of solder joints . . . . .                      | 44   |
| <b>Diodes</b> . . . . .                                    | 46   |
| <b>Transistors</b> . . . . .                               | 128  |
| <b>LEDs</b> . . . . .                                      | 474  |
| <b>Sensors</b> . . . . .                                   | 486  |
| <b>Siemens Worldwide (Addresses)</b> . . . . .             | 493  |
