

# CONTENTS

<b>Chapter 1 • INTRODUCTION</b> .....	1
Further Reading .....	6
<b>Chapter 2 • CHARACTERIZATION OF MATERIALS</b> .....	7
2.1. Mechanical Properties .....	7
2.1.1. Stress–Strain Behavior .....	7
2.1.2. Mechanical Failure .....	12
2.1.3. Viscoelasticity .....	13
2.1.4. Pure Bending Stress .....	18
2.2. Thermal Properties .....	22
2.3. Surface Properties and Adhesion .....	24
Problems .....	26
Further Reading .....	28
<b>Chapter 3 • THE STRUCTURE OF SOLIDS</b> .....	29
3.1. Bonding between Atoms .....	29
3.2. Arrangement of Atoms .....	30
3.2.1. Atoms of the Same Size .....	30
3.2.2. Atoms of Different Size .....	33
3.3. Imperfections in Structures .....	34
3.4. Amorphous Solids .....	36
Problems .....	37
Further Reading .....	38
<b>Chapter 4 • METALS AND ALLOYS</b> .....	41
4.1. Alloys and Phase Diagrams .....	41
4.2. Imperfections and Strengthening Mechanisms .....	46

4.3. Corrosion of Metals .....	48
Problems .....	54
Further Reading .....	57
<b>Chapter 5 • CERAMIC MATERIALS .....</b>	<b>59</b>
5.1. Atomic Bonding and Arrangement .....	59
5.2. Physical Properties .....	63
5.3. Deterioration of Ceramic Materials .....	65
5.4. Carbons .....	67
Problems .....	70
Further Reading .....	72
<b>Chapter 6 • POLYMERIC MATERIALS .....</b>	<b>73</b>
6.1. Polymerization .....	74
6.1.1. Condensation Polymerization .....	74
6.1.2. Addition or Free Radical Polymerization .....	75
6.1.3. Solid State of Polymers .....	79
6.2. Effect of Structural Modification on Properties .....	82
6.2.1. Effect of Molecular Weight and Composition .....	82
6.2.2. Effect of Side-Chain Substitution, Cross-Linking, and Branching .....	83
6.3. Properties of Polymers .....	84
6.3.1. Mechanical Properties .....	85
6.3.2. Thermal Properties .....	87
6.4. Deterioration of Polymers .....	88
6.4.1. Chemical Effects .....	88
6.4.2. Thermal Effects during Sterilization .....	88
6.4.3. Mechanochemical Effect .....	89
6.4.4. Deterioration of Polymers <i>in Vivo</i> .....	89
Problems .....	92
Further Reading .....	96
<b>Chapter 7 • STRUCTURE–PROPERTY RELATIONSHIPS OF BIOLOGICAL MATERIALS .....</b>	<b>97</b>
7.1: Structure of Proteins and Polysaccharides .....	98
7.1.1. Proteins .....	98
7.1.2. Polysaccharides .....	102
7.2. Structure–Property Relationship of Tissues .....	104
7.2.1. Collagen-Rich and Mineralized Tissues .....	104
7.2.2. Elastic Tissues .....	114

Problems .....	121
Further Reading .....	129
<b>Chapter 8 • TISSUE RESPONSE TO IMPLANTS .....</b>	<b>131</b>
8.1. Wound Healing Process .....	131
8.1.1. Inflammation .....	131
8.1.2. Cellular Response to Repair .....	133
8.2. Body Response to Implants .....	138
8.2.1. Cellular Response to Implants .....	138
8.2.2. Systemic Effects by Implants .....	142
Problems .....	144
Further Reading .....	146
<b>Chapter 9 • SOFT TISSUE REPLACEMENT I: SUTURES, SKIN, AND MAXILLOFACIAL IMPLANTS .....</b>	<b>147</b>
9.1. Sutures, Surgical Tapes, and Adhesives .....	148
9.1.1. Sutures .....	148
9.1.2. Surgical Tapes .....	149
9.1.3. Tissue Adhesives .....	150
9.2. Percutaneous and Skin Implants .....	152
9.2.1. Percutaneous Devices .....	152
9.2.2. Artificial Skin .....	157
9.3. Maxillofacial and Other Soft Tissue Augmentation .....	158
9.3.1. Maxillofacial Implant .....	159
9.3.2. Other Soft Tissue Implants .....	159
Problems .....	160
Further Reading .....	161
<b>Chapter 10 • SOFT TISSUE REPLACEMENT II: BLOOD INTERFACING IMPLANTS .....</b>	<b>163</b>
10.1. Blood Compatibility .....	164
10.1.1. Factors Affecting Blood Compatibility .....	165
10.1.2. Nonthrombogenic Surfaces .....	165
10.2. Implants for Blood Interface .....	168
10.2.1. Vascular Implants .....	168
10.2.2. Heart Valve Implants .....	170
10.2.3. Heart Assist Devices .....	172
10.2.4. Artificial Organs .....	175
Problems .....	182
Further Reading .....	184

<b>Chapter 11 • HARD TISSUE REPLACEMENT I: LONG BONE REPAIR</b> .....	187
11.1. Internal Fracture Fixation Devices .....	188
11.1.1. Wires and Screws .....	188
11.1.2. Fracture Plates .....	190
11.1.3. Intramedullary Devices .....	194
11.1.4. Nail and Plate Devices for Femoral Osteotomy .....	195
11.1.5. Spinal Fixation Devices .....	198
11.2. Materials Used for Internal Fracture Fixation Devices .....	200
11.2.1. Stainless Steels .....	201
11.2.2. Cobalt–Chromium Alloys .....	202
11.2.3. Other Metals .....	204
Problems .....	205
Further Reading .....	207
 <b>Chapter 12 • HARD TISSUE REPLACEMENT II: JOINTS AND TEETH</b> .....	 209
12.1. Structure and Function of Joints .....	210
12.2. Various Joint Replacements .....	211
12.2.1. Hip Joint Replacement .....	212
12.2.2. Other Joint Replacements .....	220
12.2.3. Materials Used for Joint Replacements .....	220
12.3. Dental Implants .....	226
12.3.1. Endosseous Implants .....	226
12.3.2. Other Dental Implants .....	228
12.3.3. Materials Used for Dental Implants .....	228
Problems .....	230
Further Reading .....	231
 APPENDIX: SI UNITS .....	 233
 NAME INDEX .....	 235
 SUBJECT INDEX .....	 239
