Series Foreword ..... V  
 Preface ..... VII

**Keynote lectures**

Regulation in the field of biomaterials in the Federal Republic of Germany  
 E. Tschöpe ..... 1  
 Consensus and definitions in biomaterials  
 D.F. Williams ..... 11  
 Biomechanical requirements on ligament prostheses  
 L. Claes, L. Dürselen ..... 17

**Section 1. Biocompatibility testing**

Biocompatibility of Estane® and PBT/HPOE (45/55) segmented polyether polyester copolymer during infection  
 D. Bakker, C.A. van Blitterswijk, S.C. Hesseling, W. Th. Daems, J.J. Grote ..... 25  
 Surface modification of synthetic polymer materials for medical use: addition of fibrinolytic and antibacterial activities  
 S. Watanabe, O. Ike, T. Nakamura, Y. Shimizu, Y. Tamada, Y. Ikada ..... 31  
 Leukocytes at the tissue-implant interface  
 L.M. Bjursten, A.S. Eriksson, R. Olsson, P. Thomsen, L.E. Ericson ..... 37  
 Accumulation of trace elements by macrophages during degradation of biomaterials. An electron microscopical and X-ray microanalytical study  
 H.K. Koerten, C.A. van Blitterswijk, J.J. Grote, W.Th. Daems ..... 43  
 Biomaterial/tissue interface characteristics of four elastomers  
 D. Bakker, C.A. van Blitterswijk, S.C. Hesseling, W.Th. Daems, J.J. Grote ..... 49  
 Quantitative in vitro measurements of three cellular properties involved at tissue/material interface. Standardisation of the technique  
 M.F. Sigot-Luizard, J.L. Duval, M. Letort, M. Sigot ..... 55  
 Reconstruction of the abdominal wall with processed sheep dermal collagen — an experimental study in dogs  
 A.C. van der Wal, N.J.M. Out, A. van den Hooff, P.J. Klopper ..... 61

**Section 2. Biomaterial-hard tissue interactions**

Histologic reactions to different hydroxyapatite granules  
 S. Jänicke, W. Wagner, U. Wahlmann ..... 67  
 Collagenous and non-collagenous bone proteins in rats and rabbits at the bone-implant interface of bone-bonding and non-bonding glass-ceramics  
 R. W. Kinne, H.-J. Schmitz, U. Gross ..... 73  
 Tissue response to a bioactive glass-metal interface  
 E. Schepers, M. De Clercq, P. Ducheyne ..... 79  
 Removal forces for osseointegrated titanium implants  
 C. Johansson, M. Jacobsson, T. Albrektsson ..... 87  
 Reconstruction of the external ear canal and middle ear with hydroxyapatite implants  
 H.W. Lutgert, C.A. van Blitterswijk, J.J. Grote ..... 93  
 Morphometric and histologic evaluation of enosseal implanted carbon fibre reinforced polysulfone  
 U.W. Wahlmann, W. Wagner ..... 99  
 Relation between physico-chemical solubility and biodegradability of calcium phosphates  
 F.C.M. Driessens, R.M.H. Verbeeck ..... 105

### Section 3. Orthopaedics

A new design of ligament prosthesis for anterior cruciate ligament replacement J. Leandri, Ph. Dahhan, O. Tarragano, M. Cerol, P. Rey, D. Geiger .....	113
Aramid fibers and bone interactions in anterior cruciate ligament repair in dogs N. Passuti, G. Daculsi, M. Vigneron, J.C. Le Nihouannen, C. Cistac .....	119
Material properties of human cruciate ligaments in total knee arthroplasty Th. Mittlmeier, G. Wasmer, G.O. Hofmann, F.-W. Hagena, M. Bergmann, A. Walter .....	125
Experimental biomechanics of the femoropatellar joint after implantation of different knee joint endoprostheses G.O. Hofmann, F.-W. Hagena, J.S. Zimmermann .....	131
Pathomechanical aspects of failed total knee arthroplasties F.-W. Hagena, G.O. Hofmann, J.S. Zimmermann .....	137
On the geometrical shape of artificial hip joint bearings with articulation of identical materials A. Walter, F. Böhmer .....	143
Influence of assemblage geometry and fracture type on stability of monolateral external fixation B. Dreithaler, H.H. Schauwecker, M. Schmargin, R. Wilk .....	149
Ceramic prosthesis in reintervention for "aseptic" loosening G. Gualtieri, I. Gualtieri, S. Gagliardi, M. Hendriks .....	155
Porous polysulfone coated femoral stems A.J. Gavens, N.B. Beals, M.F. DeMane, J.A. Davidson, J.R. Roberson, I. Heyligers, M. Miller, M. Spector .....	159
Bioglaze coating of metallic femoral prosthetic stems: fatigue test A. Moroni, R. Mongiorgi, M. Marcacci, A. Krajewski, A. Ravaglioli .....	165
Investigation of the neo-synovia at knee prostheses A. Walter, F.-W. Hagena, G.-O. Hofmann .....	171
The clinical use of plastic plates for osteosynthesis in human fractures A.J. Tonino .....	177

### Section 4. Biomaterials and complement activation

Molecular mechanism of complement activation on polymer surfaces: contact activation of reconstituted first component (C1) of classical pathway M. Niinobe, T. Matsuda, H. Twata .....	181
Effects of the hydrophobic-hydrophilic nature of the polymer surfaces on the complement activation S. Yoshikawa, H. Fukumura, Y. Akagaki, S.-Y. Inai .....	187
Comparative study of proteins adsorbed on dialysis membranes, complement and platelets activation V. Panichi, A.M. Bianchi, L. Casarosa, R. Cominotto, M. Parrini, G. Grazi, C. Cirami, R. Palla .....	193
New polymethylmethacrylate-polyurethane (PMMA-PU) membranes for hemodialysis applications G. Soldani, M. Palla, G. Barini, P. Giusti, G. Levita, A.M. Bianchi, V. Panichi, R. Palla .....	201

### Section 5. Biological performance of Ca-phosphates

In vitro interactions between calcium phosphate biomaterials and human fibroblastic cell..I. Comparative extra and intracellular evolution of 4 synthetic calcium phosphates I. Orly, M. Gregoire, J. Menanteau, I. Jans, J.C. Heughebaert, B. Kerebel .....	211
In vitro interactions between calcium phosphate biomaterials and human fibroblastic cell. II. Incidences on the behavior of cultured gingival cells M. Gregoire, I. Orly, J. Menanteau, M. Heughebaert, B. Kerebel .....	215

Biological performance of hydroxyapatite as otologic biomaterial: An evaluation of clinical applied hydroxyapatite C.A. van Blitterswijk, J.J. Grote, H.W. Lutgert, H.K. Koerten.....	221
Histologic evaluation of ceramo-osseous regeneration complexes in human bone following hydroxyapatite ceramic implantation J.F. Osborn.....	227
High resolution lattice imaging of hydroxyapatite R. Hodgskinson, W. Bonfield.....	233
pH, HA, TCP and Bioactivity B.J. Fellows, H.J. Oel.....	239

## Section 6, Biological performance of poly-L-lactide

In vivo and in vitro degradation of poly(L-lactide) used for fracture fixation R.R.M. Bos, F.R. Rozema, G. Boering, J.W. Leenslag, A.J. Pennings, A.B. Verwey.....	245
Absorbable bone-plates and screws for the fixation of malar fractures F.R. Rozema, R.R.M. Bos, G. Boering, J.W. Leenslag, A.J. Pennings, A.B. Verwey.....	251
Release and degradation characteristics and antitumor effect of adriamycin-containing poly-L-lactic acid microspheres O. Ike, S. Watanabe, T. Nakamura, R. Wada, S.-H. Hyon, S. Hitomi, Y. Ikada, Y. Shimizu....	257
Macrophage activation for antitumor function by a muramyl dipeptide derivative encapsulated in polyactide microspheres Y. Tabata, Y. Ikada.....	263

## Section 7. Soft tissue—biomaterial interactions

Cellular synthesis performance in different collagen extraction mediums J. Dohrenbusch, M. Kern, T. Otterbach, B. Klosterhalfen, A. Valencia.....	269
Surface energy considerations in the adsorption of proteins to metals D.F. Williams, R.L. Williams.....	275
Tissue compatibility from different high cross-linked collagen sponges after subcutaneous implantation in mice H.A. Richter, J. Buchenroth, S. Handt, N. Maurin, Ch. Mittermayer.....	279
Wound healing phenomena around permanent percutaneous implants in guinea pigs and rabbits J.A. Jansen, K. de Groot.....	285
Destruction of erythrocytes under sinusoidally fluctuating shear rate S. Hashimoto, A. Ishihara, T. Sasada.....	291
Modification of polyetherurethane for endothelial cell seeding W. Breuers, D. Klee, H. Höcker, C. Mittermayer.....	297

## Section 8. Biomaterial evaluation

Constitution of oxides on titanium alloys for surgical implants P.-A. Mäusli, J.P. Simpson, G. Burri, S.G. Steinemann.....	305
Microhardness, Young's modulus and mineral content in bone and a bone analogue G.P. Evans, J.C. Behiri, W. Bonfield.....	311
Monomeric reactive centres in polymeric prosthetic materials A. Bertoluzza, P. Filippetti, P. Monti, M.R. Tosi, R. Caramazza, M. Cellini.....	317
A computerisation programme for handling data on the biocompatibility of implant materials C. Zolezzi, A. Casanova, S. Stea, L. Pratelli, G. Ciapetti, A. Pizzoferrato.....	323
Mucin pellicles protect hydroxyapatite against decalcification A.V. Nieuw Amerongen, C.H. Oderkerk, E.C.I. Veerman, K. de Groot.....	327

Immunochemical identification of proteins adsorbed onto hydroxyapatite after in vivo and in vitro incubation with serum and plasma	
E.C.I. Veerman, R.J.F. Suppers, C.P.A.T. Klein, K. de Groot, A.V. Nieuw Amerongen.....	331
Comparison of in vivo and in vitro protein adsorption patterns to bone substitutes	
E.C.I. Veerman, R.J.F. Suppers, C.P.A.T. Klein, K. de Groot, A.V. Nieuw Amerongen.....	337
Ultrastructural evaluation of different biomaterial phagocytoses by macrophages	
S. Guizzardi, G. Ciapetti, C. Tarabusi, S. Stea, A. Ruggeri, R. Riva, A. Pizzoferrato .....	343
Evaluation of adhesion capability of conjunctival <i>Staphylococcus aureus</i> on polymeric materials	
C. Arciola, P. Versura, G. Ciapetti, P. Monti, A. Pizzoferrato, R. Caramazza .....	349
Oxygen permeability through hydrogel membranes	
L. Nicodemo, F. Bellucci, C. Migliaresi, R. Le Rose, C. Carfagna, S. Nappi.....	355
The biocompatibility of intraocular-lens-haptics made of polypropylene and polymethylmethacrylate .....	361
Model for dynamic construction of isoelastic tubular prosthesis at the example of the trachea	
H.H. Schauwecker, J. Gerlach, H. Planck, E.S. Bücherl .....	371
The in vitro aging of polymers	
R. Mathys Jr., H. Weigum, P. Herzig, F. Bigolin.....	377
The corrosion fatigue properties of surgical implants in a living body	
M. Morita, H. Hayashi, T. Sasada, Y. Tsukamoto, M. Yamamoto .....	381
A study of the foaming/ceramization process in the synthesis of porous phosphate glass-ceramics for bone implants	
F. Pernot, A. Kadom Rashid .....	387
Influence of silicone co-block on performance of polyetherurethane biomaterials	
R.J. Zdrachala, D.E. Spielvogel, D.D. Solomon .....	393

## Section 9. Biocompatibility and biofunctionality of cardiovascular prosthesis

The effects of lipid diet on long term patency rate of degradable polyurethane vascular prosthesis in pigs	
G. Galletti, S. Leonardi, G. Ussia, F. Farruggia, A. Salerno, S. Gogolewski.....	399
Processed dermal sheep collagen (PDSC) as a small diameter vascular graft	
J.J.G. Bannenberg, A.C. van der Wal, P.J. Kloppe .....	405
Bio-mechanical design of novel elastomeric vascular adhesive: significance of compliance matching	
T. Matsuda, T. Yamaguchi, K. Hayashi, T. Itoh, H. Iwata, N. Nakajima .....	411
Early stages of dystrophic calcification in bioprosthesis cardiac valves: experimental animal model	
G. Noera, C. Massini, G. Fattori, A. Incerti Medici, A.M. Gatti .....	417

## Section 10. Biomechanics of bone

Osteoarthritis and the mechanical behaviour of trabecular bone in the human femoral head	
K.E. Tanner, D.J. Sharp, C. Doyle, R.R.H. Coombs, W. Bonfield.....	423
An investigation into the transmission of shock through the vertebral column	
M. Müller-Gerbl, O. Ennemoser, R. Putz.....	429
Elastic and anelastic microstrain measurement in human cortical bone	
M. Dabestani, W. Bonfield .....	435
Compressive behavior and water distribution of human lumbar vertebral disc by MRI	
T. Ushida, T. Tateishi, K. Honma, Y. Shirasaki, K. Hyodo .....	441
Contribution of mechanical factors to the pathogenesis of osteochondritis dissecans in the knee joint	
T. Nambu, E. Schneider, W. Bandi, S.M. Perren .....	447
Stabilization of distal radius fractures — biomechanical testing of K-wire- and polydioxanon-(PDS)-pins	
C. Krettek, R. Hoffmann, N. Haas .....	453

**Section 11. Biomaterials in oro-facial surgery**

Hydroxylapatite implants in periodontal bone defects in dogs G.L. de Lange, E.H. Burger, C. de Putter, K. de Groot .....	457
Loading permucosal dental implants of hydroxylapatite with orthodontic forces C. de Putter, G.L. de Lange, W. Hickory, K. de Groot, B. Prah-Andersen .....	465
Submucosal dental implants of hydroxylapatite under fixed and removable bridges F.L.J.A. de Wijs, J.A. van den Wijngaard, G.L. de Lange, K. de Groot, C. de Putter .....	471
The application of hydroxylapatite in endodontics W. van Welsenens, G.L. de Lange .....	477
Healing of the gingiva following installment of Biotex <sup>®</sup> implants in beagle dogs H.J.Y. van Drie, W. Beertsen, A. Grevers .....	485

**Section 12. Controlled release**

Preparation and properties of novel self-regulating membrane H. Iwata, T. Matsuda .....	491
Microencapsulation of islets in novel polyion-complex membranes and its evaluation as bioartificial pancreas H. Iwata, T. Matsuda, H. Amemiya, H. Takano, T. Akutsu .....	497
<b>Author Index</b> .....	503
<b>Subject Index</b> .....	506
