Contents in Brief

UNIVERSIDAD NACIONAL DE ENTRE RIOS
FACULTAD DE INGENIERIA
CENTRO DE MEDIOS
BIBLIOTECA
Nº 1 601

Contents in Brief – **v** Contents – **vii** Preface – **xvii**

Part I: Converters at Work (With and Without Microprocessors)
- 1 Introduction: Data Systems and Components – **3**
- 2 Data Acquisition – **17**
- 3 Data Distribution – **49**
- 4 System Integration and Remote Data Acquisition – **67**
- 5 Analog Functions with Digital Components – **107**
- 6 Applications of Converters in Instruments and Systems – **133**

Part II: A/D and D/A Converters
- 7 Understanding Converters – **169**
- 8 Converter Microcircuits – **221**
- 9 Converter Design Insights – **277**
- 10 Testing Converters – **297**
- 11 Specifying Converters – **343**
- 12 Applying Converters Successfully – **371**

Part III: Analog-Digital Converters for Special Applications
- 13 Video Converters – **403**
- 14 Converters for Resolvers and Related Devices – **441**
- 15 V/F and F/V Converters – **473**
- 16 Intentionally Nonlinear Converters – **513**
- 17 High-Resolution Converters – **531**

Part IV: Related Circuits and Devices (Data-Acquisition-Peripherals)
- 18 Sample-Hold Circuits – **559**
- 19 Analog Switching and Multiplexing – **573**
- 20 Reference Circuits – **599**
- 21 Digital Signal-Processing ICs – **621**

Part V: 22 Guide for the Troubled – **659**

Bibliography – **xxiii** Index – **xxxiii**
