

TABLE OF CONTENTS

Chapter 1  
 Introduction — The Study of Tissue Materials ..... 1  
**G. W. Hastings and P. Ducheyne**

Chapter 2  
 Tissue Properties: Relationship of In Vitro Studies to In Vivo Behavior ..... 5  
**J. Black**

Chapter 3  
 Structure and Formation of Bone Mineral ..... 27  
**A. L. Boskey and A. S. Posner**

Chapter 4  
 Elasticity and Viscoelasticity of Cortical Bone ..... 43  
**W. Bonfield**

Chapter 5  
 Viscoelastic Properties of Bone ..... 61  
**R. S. Lakes and J. L. Katz**

Chapter 6  
 Mechanical Properties of Cancellous Bone ..... 89  
**R. Van Audekercke and M. Martens**

Chapter 7  
 Fractography of Bone ..... 99  
**K. Piekarski**

Chapter 8  
 Structural Aspects of Tendons and Ligaments ..... 119  
**I. W. Forster**

Chapter 9  
 Structural and Mechanistic Considerations in the Strain-Related Electrical Behavior of  
 Bone ..... 151  
**G. W. Hastings**

Index ..... 161
