

# TABLE OF CONTENTS

## VOLUME II

UNIVERSIDAD NACIONAL DEL ENTRE RÍOS  
FACULTAD DE INGENIERÍA  
CENTRO DE MEDIOS  
BIBLIOTECA

### GENERAL SCIENCE AND DEVELOPMENT

Chemistry of Calcium Phosphate Bioceramics.....	3
<b>K. de Groot, C. P. A. T. Klein, J. G. C. Wolke, and J. M. A. de Blicck-Hogervorst</b>	
<i>In Vivo</i> Transformation of Biphasic Calcium Phosphate Ceramics: Ultrastructural and Physicochemical Characterizations.....	17
<b>R. Z. LeGeros and G. Daculsi</b>	
The Hydrolysis of Tetracalcium Phosphate and Other Calcium Orthophosphates.....	29
<b>L. Xie and E. A. Monroe</b>	
Osteogenic Activity of Synthetic Hydroxylapatite With Controlled Texture — On the Relationship of Osteogenic Quantity With Sintering Temperature and Pore Size.....	39
<b>Kuniomi Ito and Yoshio Ooi</b>	
Bone Substitutes — Organic, Inorganic, and Polymeric; Cell Material Interactions.....	45
<b>Itzhak Binderman and Nahum Fine</b>	
A Comparison Between Hydroxylapatite and $\beta$ -Whitlockite Macroporous Ceramics Implanted in Dog Femurs.....	53
<b>C. P. A. T. Klein, P. Patka, and W. den Hollander</b>	
The Bone-Hydroxylapatite Interface.....	61
<b>G. L. de Lange</b>	
Bone Defect Bridging With Different Implant Materials.....	77
<b>L. Claes, H.-J. Wilke, H. Kiefer, and A. Meschenmoser</b>	
Adsorption of Human Serum Protein to Dental Biomaterials.....	87
<b>Katsuhiko Nishiyama, Shozo Amino, Toshiyuki Sato, Mikio Yokoya, Toshio Kawase, and Shigeru Saito</b>	
Sustained Release of Steroid Hormones From Polylactic Acid or Polycaprolactone-Impregnated Ceramics.....	93
<b>Hamed A. Benghuzzi and Praphulla K. Bajpai</b>	

### COATINGS

Bioactive Surface Coatings for Hard Tissue Biomaterials.....	111
<b>John F. Kay</b>	

Plasma Sprayed Calcium Phosphate Ceramic Linings on Porous Metal Coatings for Bone Ingrowth .....	123
<b>P. Ducheyne, J. Cuckler, S. Radin, and E. Nazar</b>	
Plasma-Sprayed Coatings of Calcium Phosphate .....	133
<b>K. de Groot, C. P. A. T. Klein, J. G. C. Wolke, and J. M. A. de Blicck-Hogervorst</b>	
Contribution of Hydroxylapatite Coatings to Implant Fixation.....	143
<b>Everard Munting, Michel Verhelpen, Feng Li, and André Vincent</b>	
The Screening of Metal Implants Coated With Several Types of Ceramics.....	149
<b>K. Hayashi, K. Uenoyama, N. Matsuguchi, and Y. Sugioka</b>	
Comparison of Bone Ingrowth Into Porous Ti-6Al-4V Beads With and Without a Plasma Spray Hydroxylapatite Coating .....	155
<b>Hironobu Oonishi, Hiroshi Ishimaru, Mitsumasa Yamamoto, Eiji Tsuji, Soichi Kushitani, Mitsushi Aono, and Takaharu Nabeshima</b>	
Mechanical and Histopathological Analysis of the Interface Between Ceramic Coating Materials and Bone.....	163
<b>Yoshiki Hamada, Noriya Akamatsu, Ikumasa Nakajima, Takatoshi Ide, Toshihito Yamaguchi, and Tadahito Toshima</b>	
<b>COMPOSITES</b>	
Composite Bioactive Ceramic-Metal Materials .....	175
<b>P. Ducheyne and J. F. McGuckin, Jr.</b>	
Endosseous Dental Implants of Bioactive Composite Materials of Hydroxylapatite Containing Glass-Coated Titanium .....	187
<b>S. Maruno, K. Hayashi, Y. Sumi, Y. F. Wang, and H. Iwata</b>	
Bioactive Composites in Orthopedics.....	195
<b>Christina Doyle</b>	
Mechanical and Biological Properties of a Porous Polymer-Coated Coralline Ceramic .....	209
<b>A. F. Tencer, E. C. Shors, P. L. Woodard, and R. E. Holmes</b>	
Implantation of Hydroxylapatite Granules Mixed With Atelocollagen and Bone Inductive Protein in Rat Skull Defects .....	223
<b>Masatoshi Watanabe, Kiyoshi Harada, Izumi Asahina, and Shoji Enomoto</b>	
Osteogenic Potential of Bone Marrow Sustained by Porous Calcium Phosphate Ceramics .....	229
<b>Hajime Ohgushi, Motoaki Okumura, Kenji Masuhara, Victor M. Goldberg, Dwight T. Davy, and Arnold I. Caplan</b>	

Calcium Phosphate Block Ceramic With Bone Marrow Cells in a Rat Long Bone Defect .....	235
<b>Hajime Ohgushi, Motoaki Okumura, Kenji Masuhara, Victor M. Goldberg, Dwight T. Davy, and Arnold I. Caplan</b>	
Bone Regeneration Within Porous Calcium Phosphate Glass-Ceramics and Composite Materials .....	239
<b>Makoto Wada, Shinichi Imura, Seiichi Sasahara, and Yoshihiro Abe</b>	
Inductive Bone Matrix and Porous Hydroxylapatite Composites in Rodents and Nonhuman Primates.....	245
<b>Ugo Ripamonti</b>	
Ceramic Amino Acid Composites for Repairing Traumatized Hard Tissues .....	255
<b>Praphulla K. Bajpai</b>	
TISSUE AND ORGAN CULTURE STUDIES	
<i>In Vitro</i> Evaluation of Hydroxylapatite-Reinforced Polyethylene Composites .....	273
<b>S. F. Tarrant and J. E. Davies</b>	
A Method to Assess the Response of a Bone Substitute Material to Osteoclasts .....	283
<b>J. E. Davies and J. Brady</b>	
Initial Interactions of Synthetic Hydroxylapatite With Cultured Gingival Fibroblasts.....	295
<b>Tsutomu Sato and Motō Niwa</b>	
Phagocytosis <i>In Vitro</i> of Hydroxylapatite Particles by Macrophages.....	301
<b>T. Ushida, T. Tateishi, Y. Tabata, T. Yamaoka, and Y. Ikada</b>	
PRECLINICAL AND CLINICAL RESULTS	
Bone Response to the Surface Properties of Intramedullary Rods .....	307
<b>T. W. Bauer, D. M. Gaisser, M. Uratsuji, and S. I. Reger</b>	
Morphological Study of HA-3G Resin Composite for Perimucosal Dental Implants .....	317
<b>Satoshi Ishida, Hideaki Nagura, Masashi Sakagami, Masayoshi Tabana, Mitsuo Kaneko, Masazumi Tani, and Shoji Enomoto</b>	
Development of Hydroxylapatite Tracheal Prosthesis Following YAG Laser Irradiation.....	321
<b>Katsuki Muneoka, Takayuki Tsuji, Hideki Aoki, Yoshiharu Shinn, and Tatsuo Togawa</b>	
Preliminary Reports on a Permanent Hydroxylapatite Ceramic Artificial Limb Interface.....	325
<b>Hideo Yano</b>	

Atrophic Alveolar Ridge Augmentation With Purified Fibrillar Collagen and Hydroxylapatite .....	331
<b>Donald R. Mehlisch</b>	
The Use of Bioactive Ceramics for Bone Tumor Surgery .....	341
<b>A. Uchida, E. Kurisaki, and K. Ono</b>	
Macroporous Polycrystalline Calcium Phosphate Implant for Spinal Fusion in Man and Dogs .....	345
<b>N. Passuti, G. Daculsi, S. Martin, and C. Deudon</b>	
A Technique for Interface Bioactive Bone Cementation by Interposing Hydroxylapatite .....	355
<b>Hironobu Oonishi, Shoichi Kushitani, Hiroshi Ishimaru, Eiji Tsuji, Mitsushi Aono, and Kunio Maeda</b>	
Ceramics in Bone Replacement; Reconstruction of Tibial Plateau With Hydroxylapatite.....	363
<b>P. Patka, C. P. A. T. Klein, and W. den Hollander</b>	
Implantation in the Human Forearm of a Percutaneous Device Made of Sintered Hydroxylapatite .....	373
<b>Takayuki Tsuji, Hideki Aoki, Yoshiharu Shin, and Tatsuo Togawa</b>	
Hydroxylapatite Percutaneous Access Device in Peritoneal Dialysis.....	377
<b>Naoki Yoshiyama, Yoshiharu Shin, and Hideki Aoki</b>	
Index .....	389
