Preface ix

PART I: ANALYSIS

A Rapid Bioassay for Assessing the Toxicity of Chemicals Extracted from Medical Grade Plastics
 Anthony A. Bulich..... 3

Creep Analysis of Delrin Stents for Cardiac Bioprosthesis Devices
 E. Miller, C. B. Gilpin..... 9

ESCA: Biomedical Studies
 Buddy D. Ratner..... 28

Characterization of Porous Coatings
 Todd S. Smith..... 34

Gel Permeation Chromatography as a Quality Control Tool in the Medical Plastics Industry
 John P. Helfrich, Edward C. Conrad..... 43

Recent Advances in Medical Plastics Analysis
 Lecon Woo, Craig Sandford, Robert Walter..... 52

Property Changes of UHMW Polyethylene During Implantation—First Hints for the Development of an Alternative Polyethylene
 P. Eyerer..... 62

PART II: NEW MATERIALS

Rationale for Biological Fixation of Prosthetic Devices
 Todd S. Smith..... 71

New Material Concepts in Orthopedics
 J. C. Bokros..... 79

Influence of Mixing Technique on Some Properties of PMMA Bone Cement—Clinical Practice, Producer's Advice, Material Investigations, Improvements
 P. Eyerer, R. Jin..... 90

Advances in Biomedical Adhesives and Sealants
 Henry Lee..... 98

High Performance Tecoflex Polyurethanes in Biomedical Applications	
Michael Szycher, Victor Poirier.....	110
Artificial Skin: A Fifth Route to Organ Repair and Replacement	
I. V. Yannas, D. P. Orgill.....	119
Synthesis and Properties of Biomedical Graft Copolymers	
J. L. Williams.....	134
High Performance Medical Grade Silicone Elastomer	
Eldon E. Frisch.....	143
Materials for Ligament Replacement	
James M. Moran.....	157
Machining Bioglass® Implants	
June Wilson, G. E. Merwin, L. L. Hench.....	166
Advanced UV-Curable Polyurethanes for Wound Dressings	
M. Szycher, Jonathan L. Rolfe, G. C. Battiston, J. Vincent.....	174
High Molecular Weight Citric Acid Esters as Effective Plasticizers for Medical-Grade PVC	
E. H. Hull, K. K. Mathur.....	186
Visible Light Cured Biomaterials	
Henry Lee.....	199
Silicone Contact Lenses	
John K. Fitzgerald.....	209
Titanium Alloy Alumina Ceramics and UHMWPE Use in Total Joint Replacement	
I. C. Clarke.....	217

PART III: TESTING

The Biostability of Various Polyether Polyurethanes Under Stress	
Kenneth B. Stokes, Anthony W. Frazer, Elizabeth A. Carter.....	235
Testing Methods in Biomaterials	
Wesley D. Johnson.....	245
Evaluating Dental Restorative Materials with an Automated Servohydraulic Test System and Artificial Oral Environment	
Wesley D. Johnson.....	262

PART IV: RELIABILITY

Durability Prediction and Testing of Elastomeric Biomaterials

J. L. Kardos, K. Gadkaree, A. P. Bhate 271

Implantable Titanium Feedthrough Reliability

D. E. Dixon 278
