BIBLIOTECA

1 Getting Started 1

1.1 **How to Use This Text** 3
Welcome 3 | Chapter Organization 3 | Conclusion 4

1.2 **How the Computer Works** 4
Hardware 4 | Software 4 | Applications Software 5 | Information 6 | The Processor 6 | Main Memory 7 | Resident Monitor Program 7 | Disk Operating Systems 7 | The Disk 7 | Conclusion 8 | Section Review 8

1.3 **Computer Languages** 9
What the Computer Understands 9 | Computer Language 10 | What People Understand 10 | Language Levels 10 | Why Other Languages? 11 | Compilers 12 | Conclusion 13 | Section Review 13

1.4 **The Pascal Operating System** 14
Overview 14 | Using the Pascal Operating System 14 | Conclusion 16 | Section Review 16

1.5 **Why Pascal?** 16
Background 16 | Reasons for Pascal 16 | What Pascal Looks Like 16 | The Different Parts 17 | Conclusion 18 | Section Review 18

1.6 **Program Structure** 18
Structured vs Unstructured Programming 19 | Program Blocks 20 | The Programmer's Block 21 | Advantages and Disadvantages of Structured Programming 23 | Conclusion 23 | Section Review 23

1.7 **Program Debugging and Implementation—Starting with Turbo** 23
First Things 24 | Getting Started 24 | Tour of the Main Turbo Screen 24 | Entering the Edit Screen 25 | Putting in Your First Program 26 | Running Your Program 26 | Leaving Turbo 27 | Conclusion 28 | Section Review 28 | Summary 28 | Interactive Exercises 29 | Pascal Commands 31 | Self-Test 31 | Problems 33

2 What Computers Can Do (Using Pascal to Do It) 38

2.1 **What Computers and People Do Best** 38
Introduction 38 | What Computers are Good at Doing 39 | What's Hard for the Computer 39 | Conclusion 40 | Section Review 40

2.2 **No Matter What, This is All a Computer Can Do** 40
Introduction 40 | An Important Theorem 40 | Going From One Place to Another 41 | Deciding Where to Go Once You're There 41 | Going Back Where You Came From 42 | Sample Problem 43 | Analysis of Sample Program 44 | Conclusion 44 | Section Review 44

2.3 **Using Road Maps—The Flowchart** 46
Introduction 46 | Flowchart Symbols 47 | The Completeness Theorem 47 | Action Block 48 | Branch Block 49 | Loop Block 49 | Difference Between a Loop and a Branch 49 | Flowchart Example 50 | Advantages of Flowcharting 50 | Conclusion 51 | Section Review 51

2.4 **Top-Down Design** 51
Introduction 51 | Approach to Developing Programs 53 | Steps in Top-Down Design 53 | Developing Procedures 55 | Structure of a Typical Pascal Program 56 | Conclusion 56 | Section Review 56

2.5 **The Applied Programming Method** 56
Discussion 56 | Using APM 56 | Using the APM Phases 59 | Solving the Problem by Hand 60 | Developing an Algorithm 61 | Control Methods 62 | Program Constants and Variables 64 | First Program Writing 66 | Conclusion 67 |Section Review 67

2.6 **Developing a Pascal Program** 68
Introduction 68 | Sample Program 68 | Problem Statement 69 | Putting it all Together 73 | Conclusion 75 | Section Review 75

2.7 **Program Debugging and Implementation—Saving and Retrieving Your Program** 75
Introduction 75 | Creating a Data Disk 75 | Two-Drive System 76 | One-Drive System 76 | Checking the Directory 76 | Entering and Saving 77 | Automatic Backup 77 |

Getting a Program from the Disk 78 | Making an Executable File 78 | Conclusion 79 | Section Review 79 | Summary 79 | Interactive Exercises 80 | Pascal Commands 83 | Self-Test 84 | Problems 84

3 Data, Expressions, and Assignments 91

3.1 **Statements and Semicolons 92**
Introduction 92 | Statement 92 | The Semicolon 93 | Conclusion 94 | Section Review 95

3.2 **Identifying Things 95**
Introduction 95 | Constants and Variables 95 | Identifying Things 96 | Conclusion 98 | Section Review 98

3.3 **Pascal Types 98**
Introduction 98 | Information Types 98 | Declaring It 100 | Commenting on Your Variables 101 | Assigning Constants 103 | Conclusion 103 | Section Review 103

3.4 **Writing and Reading 105**
Introduction 105 | Writing to the Screen 105 | Reading From the Keyboard 106 | More Writing 108 | Conclusion 111 | Section Review 111

3.5 **Assigning Things 111**
Introduction 111 | Assigning Things 111 | Conclusion 112 | Section Reveiw 114

3.6 **Expressing Things 114**
Introduction 114 | Arithmetic Operators 115 | The * Operator 115 | The / Operator 116 | The DIV Operator 117 | The MOD Operator 117 | The–Operator 118 | Precedence in Calculations 119 | Sample Program 119 | Conclusion 123 | Section Review 123

3.7 **Screen Formatting 123**
Introduction 123 | More Writing 124 | More Reading 125 | More About the WRITELN 125 | Displaying REAL Numbers 126 | E Notation 127 | Controlling the Output 129 | Units 130 | Putting Things Where You Want Them 131 | Getting Information to the Printer 132 | Conclusion 132 | Section Review 133

3.8 **Program Debugging and Implementation—Turbo System Features 133**
Introduction 133 | Getting Help 133 | Using Menus 134 | Turbo Hot Keys 134 | Changing the Bottom Line 134 | Loading Files 134 | Saving Files 135 |Conclusion 135 | Section Review 135 | Summary 135 | Interactive Exercises 136 | Pascal Commands 143 | Self-Test 148 | Problems 151

BIBLIOTECA

4 Procedures and Functions 161

4.1 **Review of Procedures 162**
Introduction 162 | Calling a Procedure 162 | Multiple Calls 163 | Calling From a Procedure 164 | Calling Order 164 | Calling Through a Procedure 166 | Procedures in Decision-Making 166 | Using Procedures in Loops 167 | Recursion 169 | Conclusion 169 | Section Review 170

4.2 **Procedures, Constants, and Variables 171**
Introduction 171 | Global Declarations 171 | Concept of Scope 173 | Using the Constants and Variables Guide 174 | When to Declare 179 | Conclusion 180 | Section Review 180

4.3 **Pascal Functions 180**
Introduction 180 | Basic Idea 181 | Your First Function 181 | Function Examples 184 | Built-In Turbo Functions 186 | Conclusion 188 | Section Review 189

4.4 **More About Procedures 189**
Introduction 189 | An Application 189 | Value and Variable Parameters 192 | Conclusion 193 | Section Review 195

4.5 **Library Routines 195**
Introduction 195 | What is a Good Routine? 195 | Useful Turbo Routines 195 | Conclusion 197 | Section Review 197

4.6 **Forwarding Things 197**
Introduction 197 | When Needed 198 | Another Use 199 | The Ultimate Documentation 201 | Conclusion 201 | Section Review 204

4.7 **Program Debugging and Implementation—Features of the Turbo Editor 204**
Discussion 204 | Moving the Cursor 205 | Inserting and Deleting 204 | Block Commands 205 | Other Important Commands 206 | Conclusion 208 | Section Review 208 | Summary 208 | Interactive Exercises 209 | Pascal Commands 218 | Self-Test 219 | Problems 234

5 Branching and Strings 243

5.1 **Logic Decisions 244**
Introduction 244 | Relational Operators 244 | The IF-THEN 244 | Boolean Algebra 247 | Boolean Operators 247 | Combining Relational and Boolean Operators 250 | Conclusion 251 | Section Review 251

5.2 **The IF-THEN-ELSE 251**
Introduction 251 | Basic Idea 251 | Sequencing IF-THEN-ELSE Statements 253 | More Sequencing 256 | Conclusion 257 | Section Review 257

5.3 **The CASE Statement** 257
Introduction 257 | Basic Idea 258 | Building a CASE 258 | Compounding the CASE 260 | Other Options 263 | Conclusion 264 | Section Review 264 |
5.4 **Strings and Related Things** 264
Introduction 264 | A Character String 265 | Defining a String 266 | String Constants 267 | Stringing Things Together 268 | Conclusion 269 | Section Review 269
5.5 **String Magic** 269
Introduction 269 | COPY Function 270 | DELETE Procedure 271 | INSERT Procedure 271 | LENGTH Function 272 | POS Function 273 | STR Procedure 274 | VAL Procedure 275 | Conclusion 277 | Section Review 277
5.6 **Program Debugging and Implementation—Turbo Pascal Units** 277
Introduction 277 | Basic Idea 277 | The Unit 278 | Functions in a Unit 278 | Other Unit Capabilities 281 | Procedures in the Unit 282 | Conclusion 284 | Section Review 284 | Summary 284 | Interactive Exercises 285 | Pascal Commands 290 | Self-Test 293 | Problems 301

6 **Types and Loops** 309
6.1 **Pascal Types** 310
Basic Idea 310 | Scalar Data Types 313 | The ORDinal Function 314 | The PREDecessor Function 316 | The SUCCessor Function 317 | An Application Program 319 | Conclusion 320 | Section Review 320
6.2 **Introductory Concepts** 320
Discussion 320 | General Idea 321 | What You Need to Know 322 | Loop and Branch Compared 323 | Why Loops are Needed 325 | Conclusion 326 | Section Review 326
6.3 **REPEATing Things** 326
Introduction 326 | Fundamental Loop Structure 326 | An Important Concept 328 | Falling Body Revisited 331 | Conclusion 332 | Section Review 332
6.4 **WHILE Things are Happening** 332
Introduction 332 | Basic Idea 332 | As a Counting Loop 335 | Conclusion 336 | Section Review 336
6.5 **FOR One Thing TO Another** 336
Introduction 336 | The FOR Statement 336 | Decrementing with the FOR-TO 338 | Using any Ordinal Value 339 | Conclusion 341 | Section Review 341
6.6 **Nested Loops** 341
Discussion 341 | General Idea 342 | Nested Loop Structure 342 | Nesting with REPEAT-UNTIL 343 | Nesting WHILE-DO Loops 346 | Mixing Nested Loops 346 | Conclusion 347 | Section Review 347

6.7 **A Loop Application** 348
Introduction 348 | Application Program 348 | Program Analysis 354 | Conclusion 355 | Section Review 355
6.8 **Program Debugging and Implementation—Preparing User Input** 355
Introduction 355 | An Input Problem 356 | Inputting with Strings 357 | Conclusion 359 | Section Review 359 | Summary 360 | Interactive Exercises 360 | Pascal Commands 368 | Self-Test 369 | Problems 374

7 **Arranging Information** 383
7.1 **What is an Array?** 384
Keeping Track of Things 384 | Tagging with Subscripts 385 | Representing Arrays 387 | Putting the Data In 389 | Getting the Data Out 390 | Initializing an Array 392 | Getting More Data Out 394 | Conclusion 395 | Section Review 395
7.2 **Ways of Representing an Array** 396
Some Details 396 | Simple Array 396 | Your Own Type 398 | Passing Arrays as Parameters 401 | Arithmetic with Indices 403 | Array Assignments 404 | Array Comparisons 405 | Packed Arrays 405 | Conclusion 405 | Section Review 406
7.3 **Working with Arrayed Data** 406
Discussion 406 | Putting Data In 406 | Program Analysis 409 | Getting Data Out 409 | Conclusion 411 | Section Review 412
7.4 **Sorting** 412
Basic Idea 412 | A Word about Subscripts 413 | Sample Program 415 | Program Analysis 417 | Conclusion 418 | Section Review 418
7.5 **Sorting Strings** 419
Basic Idea 419 | Making a Modification 419 | Program Execution 420 | Sorting Number Strings 421 | Conclusion 421 | Section Review 422
7.6 **Program Debugging and Implementation—Debugging Methods** 422
Run-Time Errors 422 | A Sample Problem 422 | Auto Debug 424 | Auto-Debug Procedure 425 | Conclusion 427 | Section Review 427
7.7 **Case Study** 427
Discussion 427 | Problem Statement 427 | Design Process 428 | Algorithm Development Guide 431 | Control Blocks Guide 431 | Program Constants and Variables 433 | Pascal Design Guide 434 | Conclusion 441 | Section Review 441 | Summary 441 | Interactive Exercises 442 | Pascal Commands 445 | Self-Test 446 | Problems 453

8 Records and Files 461

8.1 **What is a Record? 462**
Introduction 462 | Basic Idea 462 | Record Arrays 465 | Using the WITH 466 | Passing Records 468 | Conclusion 471 | Section Review 471

8.2 **Ways of Representing Records 471**
Introduction 471 | Records Within Records 471 | Arrays Within Records 472 | Arrays of Records with Arrays 473 | Records Within Array Records 473 | Variant Records 474 | Conclusion 477 | Section Review 477

8.3 **Introduction to Files 477**
Introduction 477 | Basic Idea 478 | Inputting and Outputting 478 | What's in a Name? 479 | A Secret Revealed 479 | About Reading 480 | Conclusion 480 | Section Review 481

8.4 **File Details 477**
Introduction 481 | A Text File 481 | A DOS Review 481 | Assigning Things 482 | Disk File Conditions 482 | File Does Not Exist 483 | Putting Data Into the File 484 | An Existing File 485 | Adding More Information 486 | Revisiting the Ways 488 | Conclusion 488 | Section Review 488

8.5 **Inside Files 489**
Introduction 489 | Using WRITELN and READLN 489 | Looking at READ 490 | Looking at WRITE 492 | What You Have Seen 493 | Working with Numbers 493 | Converting Back and Forth 495 | Different Types 497 | Using the EOF Marker 498 | Conclusion 500 | Section Review 500

8.6 **Random-Access Files 500**
Introduction 500 | Basic Idea 501 | Sample Program 501 | Getting Stuff Out 503 | Using READ and WRITE 504 | Application Program 504 | Programming Dangers 508 | Conclusion 509 | Section Review 509

8.7 **Program Debugging and Implementation—Compiler Directives 509**
Compiler Directives 509 | An Application 509 | Making an I/O Error Function 512 | Conclusion 515 | Section Review 515

8.8 **Case Study 515**
Discussion 515 | Problem Statement 515 | Design Process 515 | Making it a Record 516 | RECORD Advantages 516 | Adding File Capabilities 517 | Program Suggestion 518 | Conclusion 518 | Section Review 518 | Summary 518 | Interactive Exercises 519 | Pascal Commands 527 | Self-Test 529 | Problems 535

BIBLIOTECA

9 Color and Technical Graphics 541

9.1 **Pascal Text and Color 542**
Discussion 452 | What Your System Needs 542 | The Color Monitor 542 | Display Capabilities 543 | The Mode Procedure 544 | Text Color 545 | Changing the Background 549 | Conclusion 550 | Section Review 550

9.2 **Starting Turbo Pascal Graphics 551**
Discussion 551 | Basic Idea 551 | What You Need to Know 552 | Selecting Your Graphics Driver 553 | The Graphics Screen 553 | Lighting Up a Pixel 554 | Using Color 556 | Making an AutoDetect Procedure 558 | Conclusion 558 | Section Review 558

9.3 **Knowing Your Graphics System 559**
Discussion 559 | Your System's Screen Size and Colors 559 | Your System's Modes 560 | Creating Lines 562 | Conclusion 564 | Section Review 564

9.4 **Built-In Shapes 564**
Discussion 564 | Changing Graphics Modes 565 | Line Styles 566 | Making Rectangles 568 | Creating Circles 570 | Area Fills 572 | Conclusion 575 | Section Review 575

9.5 **Bars and Text in Graphics 575**
Discussion 575 | Creating Bars 575 | Filling in the Bars 577 | Text with Graphics 581 | Changing Text Fonts 582 | Conclusion 585 | Section Review 585

9.6 **Graphing Functions 585**
Discussion 585 | Fundamental Concepts 585 | Scaling 587 | Coordinate Transformation 589 | Putting it Together 589 | Analyzing the Program 590 | Conclusion 593 | Section Review 593

9.7 **Program Debugging and Implementation—Programming Style 594**
Discussion 594 | Pascal Reserved Words 594 | Procedure and Function Identifiers 594 | Naming Things 594 | Your Structure 595 | Conclusion 597 | Section Review 597 | Summary 598 | Interactive Exercises 598 | Pascal Commands 599 | Self-Test 603 | Problems 605

Appendices 613
Appendix A—Introduction to IBM and PC DOS 613
Appendix B—Standard Pascal 619
Appendix C—ASCII Character Set 619
Appendix D—The Seven Phases of APM 620
Appendix E—APM Guides 620
Appendix F—Pascal Design Guide 622
Appendix G—General Pascal Structure 623

Glossary 625

Answers 633

Answers to Section Reviews—Chapter 1 633 | Answers to Self-Test—Chapter 1 635 | Answers to Problems—Chapter 1 636 | Answers to Section Reviews—Chapter 2 636 | Answers to Self-Test—Chapter 2 639 | Answers to Problems—Chapter 2 642 | Answers to Section Reviews—Chapter 3 643 | Answers to Self-Test—Chapter 3 645 | Answers to Problems—Chapter 3 646 | Answers to Section Reviews—Chapter 4 648 | Answers to Self-Test—Chapter 4 650 | Answers to Problems—Chapter 4 652 | Answers to Section Reviews—Chapter 5 654 | Answers to Self-Test—Chapter 5 656 | Answers to Problems—Chapter 5 656 | Answers to Section Reviews—Chapter 6 659 | Answers to Self-Test—Chapter 6 662 | Answers to Problems—Chapter 6 662 | Answers to Section Reviews—Chapter 7 664 | Answers to Self-Test—Chapter 7 665 | Answers to Problems—Chapter 7 666 | Answers to Section Reviews—Chapter 8 667 | Answers to Self-Test—Chapter 8 670 | Answers to Problems—Chapter 8 670 | Answers to Section Reviews—Chapter 9 672 | Answers to Self-Test—Chapter 9 674 | Answers to Problems—Chapter 9 674
