

CONTENTS

UNIVERSIDAD NACIONAL DE ENTRE RÍOS
FACULTAD DE INGENIERÍA
CENTRO DE MEDICINA
BIBLIOTECA

№ 1 83 0

Preface	vii
Acknowledgments	ix
Symbols	xi
Abbreviations	xv
Synthetic Membranes and Their Preparation	
H. Strathmann	1
Preparation of Asymmetric Membranes by the Phase Inversion Process	
J. G. Wijmans and C. A. Smolders.....	39
Transport Principles – Solution, Diffusion and Permeation in Polymer Membranes	
G. S. Park	57
Transport Principles – Porous Membranes	
P. M. Bungay.....	109
Separation by Membranes	
P. Meares	155
Transport in Ion Exchange Membranes	
P. Meares	169
Membrane Electrodes	
P. Meares	181
Electrodialysis	
H. Strathmann	197
Microfiltration	
M. C. Porter	225
Ultrafiltration	
P. Aptel and M. Clifton	249
Reverse Osmosis	
H. K. Lonsdale	307
Selectivity in Membrane Filtration	
G. Jonsson	343
Concentration Polarization in Reverse Osmosis and Ultrafiltration	
M. C. Porter	367

Membrane Gas Separations – Why and How W. J. Ward III	389
Pervaporation P. Aptel	403
Membranes in Energy Conservation Processes R. W. Baker	437
Process Design and Optimization R. Rautenbach	457
Carrier-Mediated Transport J. S. Schultz	523
Liquid Membranes D. Bargeman and C. A. Smolders	567
Controlled Release Delivery Systems R. W. Baker and L. M. Sanders	581
Dialysis G. Jonsson	625
Biomedical Applications J. S. Schultz	647
Membranes and Membrane Processes in Biotechnology E. Drioli	667
Biological Membrane Concepts W. R. Galey	683
How to Bridge the Gap Between Membrane Biology and Polymer Science Oriented Polymers as Models for Biomembranes and Cells H. Ringsdorf and B. Schmidt	701
Authors	713
Participants	715
Index	719
