

ABSTRACT	11
1. SCIENCE AND TECHNOLOGY, A SHARED HERITAGE OF MANKIND	17
2. THE WIDENING GAP IN SCIENCE AND TECHNOLOGY	19
3. THE FOUR AREAS OF SCIENCE AND TECHNOLOGY	21
A) Basic (curiosity-oriented) Sciences	21
B) Sciences in Application	24
C) Conventional "Low" Technology	25
D) Science-based "High" Technology	28
4. WHY HAS SCIENCE AND TECHNOLOGY LAGGED BEHIND IN THE SOUTH?	31
A) i) Lack of Meaningful Commitment towards Science, either Basic or Applied	31
ii) No Commitment to Self-Reliance in Technology	31
B) Inadequate Institutional and Legal Framework	32
C) The Manner in Which the Enterprise of Science Has Been Run	33

5.	THE SUB-CRITICAL SIZE OF SCIENCE AND TECHNOLOGY IN THE SOUTH	34
6.	STEPS NEEDED TO MAKE SCIENCE AND TECHNOLOGY STRONG IN DEVELOPING COUNTRIES	40
A)	The Five Classes of Communities in a Developing Society which must Cooperate	40
B)	Generous Patronage and Minimal Expenditures on Science and Technology	43
C)	The Modalities of Growth of Sciences and High Technology, including Training and International Contacts	45
D)	Utilisation of and Reciprocal Commitment and Responsibility of Scientists	46
i)	Feeling of Inferiority regarding Indigenous Science and Technology	46
ii)	Reciprocal Responsibility of Scientists and Technologists	48
E)	The Universality of Science and the Brain Drain	50
F)	The Role of Private Foundations for Science and Technology	52
G)	Recognition that Creativity in Scientific Research is not Easy and that it has its own Mores and Modalities	53
7.	SCIENCE AND TECHNOLOGY EDUCATION POLICY	54

8.	INTERNATIONAL MODALITIES FOR THE GROWTH AND UTILISATION OF SCIENCE AND TECHNOLOGY	64
A)	Recognition that the Growth of Sciences and Technology is basically a Problem for the South and a Long-term One	64
B)	Concerted Action between the South and the North	65
i)	10% of the Aid Funds to be earmarked for Science and Technology	65
ii)	Birthright of Southern Scientific Communities: Free Access to Scientific Literature	65
iii)	United Nations Agencies and International Centres for Science	66
iv)	Multinational Corporations	67
C)	South-South Collaboration	68
9.	DESIRABLE REGIONAL ARRANGEMENTS AND GLOBAL SCIENCE	70
10.	ENVOI	72
