

# Contents

<b>Introduction</b> .....	1
<b>Part I: Getting Started</b> .....	3
Needs Assessment for Communication System Design, <i>C. R. Stratton (Journal of Technical Writing and Communication, 1976)</i> .....	4
Writing Can Still Be the Better Way, <i>L. E. Biscardi, Jr. and W. N. Coburn (IEEE Transactions on Engineering Writing and Speech, May 1970)</i> .....	13
Selecting and Writing to the Proper Level, <i>J. Racker (IRE Transactions on Engineering Writing and Speech, January 1959)</i> .....	18
Try Writing a Technical Article, <i>F. W. Holder (IEEE Transactions on Professional Communication, December 1976)</i> .....	24
Plan Ahead for Publication, <i>D. E. Olson (Machine Design, October 28, 1965)</i> .....	28
Placement of Technical Papers for Maximum Effectiveness, <i>C. A. Meyer (IRE International Convention Record, 1962)</i> .....	33
An Equilibrium Theory for the Meeting Paper, <i>J. H. Heald, Jr. (IEEE Transactions on Engineering Writing and Speech, May 1969)</i> .....	38
<b>Part II: The Rhetoric of Papers and Articles</b> .....	41
Rhetoric in an Age of Science and Technology, <i>T. M. Sawyer (College Composition and Communication, December 1972)</i> .....	42
Anatomy of Uncommunicativeness, <i>R. Davison (Institute in Technical and Industrial Communication, 7th Annual Proceedings, July 1964)</i> .....	51
The Gulf between Correctness and Understanding, <i>J. Lufkin (IEEE Transactions on Professional Communication, March 1976)</i> .....	61
The Writing Process as a Design Tool, <i>E. R. Bernheisel (Proceedings, 24th International Technical Communication Conference, 1977)</i> .....	64
Clear Thinking and Its Relationship to Clear Writing, <i>C. H. Lang (Institute in Technical and Industrial Communication, 5th Annual Proceedings, July 1962)</i> .....	68
A Dissepiment on Dissertating, <i>R. P. Perkins (Journal of Industrial Teacher Education, 1977)</i> .....	75
Rhetoric Applied to Scientific Method, <i>D. Marder (Society of Technical Writers and Publishers Review, July 1960)</i> .....	77
Rules, Context, and Technical Communication, <i>C. R. Miller (Proceedings, 25th International Technical Communication Conference, 1978 and Journal of Technical Writing and Communication, 1980)</i> .....	80
Structure, Content, and Meaning in Technical Manuscripts, <i>H. B. Michaelson (Technical Communications, Second Quarter, 1968)</i> .....	85
<b>Part III: Tricks of the Trade</b> .....	89
The Incremental Method of Writing Engineering Papers, <i>H. B. Michaelson (IEEE Transactions on Professional Communication, March 1974)</i> .....	90
Writing an Abstract Months Before the Paper, <i>C. Hawes and C. Harkins (Technical Communications, Fourth Quarter, 1968)</i> .....	92
The Forgotten Art of Punctuation, <i>B. Jarman (Proceedings, 24th International Technical Communication Conference, 1977)</i> .....	95

Contextual Editing: The First Step in Editing Sentences, <i>J. C. Mathes (Proceedings, 23rd International Technical Communication Conference, 1976)</i> .....	99
Paragraphing in Technical Writing, <i>J. B. Colby (Technical Communications, March/April 1971)</i> .....	104
Transitional Devices for the Writer, <i>K. M. Marshak (IEEE Transactions on Professional Communication, December 1975)</i> .....	107
Creative Design and Rhetorical Inquiry: Report Writing Strategies, <i>V. M. Winkler (Proceedings, 27th International Technical Communication Conference, 1980)</i> .....	110
Writing Better Technical Papers, <i>L. L. Farkas (IEEE Transactions on Engineering Writing and Speech, December 1964)</i> .....	119
What to do About Cobblestone Writing, <i>G. H. Douglas (Technical Writing Teacher, Fall 1977)</i> .....	123
How to Get Dullness Out of Your Writing, <i>L. R. Greif (Advertising and Sales Promotion, August 1969)</i> .....	127
How Does Your Writing Measure Up...At These Nine Vital Points, <i>J. R. Gould and N. G. Shidle (Chemical Engineering, July 1954)</i> .....	129
Keys to Good Article Writing, <i>J. M. Carroll (IRE Transactions on Engineering Writing and Speech, December 1959)</i> .....	134
<b>Part IV: Some Research Results</b> .....	139
Methods of Measuring Communication Results, <i>U-L. Andersson (Journal of Technical Writing and Communication, April 1971)</i> .....	140
Does Expression Make a Difference? <i>R. M. Davis (Technical Communications, Second Quarter, 1976)</i> .....	143
Sentence Construction in Scientific and Engineering Texts, <i>V. A. Bram (IEEE Transactions on Professional Communication, December 1978)</i> .....	146
Readable Technical Writing: Some Observations, <i>G. R. Klare (Technical Communication, Second Quarter, 1977)</i> ..	149
How Technical Is Your Writing?—A Statistical Linguistics Question, <i>H. Lauer (Society of Technical Writers and Publishers Review, April 1963)</i> .....	152
Filtering Typographic Noise from Technical Literature, <i>J. A. Carte (Technical Communication, Third Quarter, 1973)</i> .....	154
Sloppy Typing and Reproduction in a Written Technical Message—An Experiment, <i>R. M. Davis (Journal of Technical Writing and Communication, January 1972)</i> .....	156
Types of Outlines Used by Technical Writers, <i>B. K. McKee (Journal of English Teaching Techniques, Winter 1974/1975)</i> .....	163
5 Experiments in Technical Writing, <i>J. H. Bloom and S. A. Goldstein (Product Engineering, May 2, 1960)</i> .....	166
<b>Part V: Following Through</b> .....	167
Ten Common Weaknesses in Engineering Reports, <i>J. R. Gould (Chemical Engineering, October 14, 1963)</i> .....	168
Information Gaps and Traps in Engineering Papers, <i>H. B. Michaelson (IRE Transactions on Engineering Writing and Speech, December 1959)</i> .....	171
Writing Informative Titles for Technical Literature—An Aid to Efficient Retrieval, <i>R. A. Kennedy (IEEE Transactions on Engineering Writing and Speech, 1964)</i> .....	175
Abstract, Conclusions and Summaries, <i>A. A. Sekey (IEEE Transactions on Professional Communication, June 1973)</i> .....	177
Integrating Text and Figures, <i>J. W. Broer (Proceedings, 25th International Technical Communication Conference 1978)</i> .....	179
Table Design—When the Writer/Editor Communicates Graphically, <i>M. F. Buehler (Proceedings, 27th International Technical Communication Conference, 1980)</i> .....	184
Subheads Boost Ad Information, Interest, Readability Levels, <i>Anonymous (Industrial Marketing, March 1978)</i> .....	189
Accuracy of Published Medical Reference Citations, <i>J. E. Goodrich and C. G. Roland (Journal of Technical Writing and Communication, 1977)</i> .....	194
36 Aids to Successful Proofreading, <i>R. H. Turner (IEEE Transactions on Professional Communication, March 1979)</i> .....	198
Writing is for Readers, <i>H. R. Clauser (Society of Technical Writers and Publishers Review, January 1961)</i> .....	200
Increasing Article Acceptance, <i>L. C. White (Journal of Technical Writing and Communication, 1979)</i> .....	205
<b>Author Index</b> .....	211
<b>Subject Index</b> .....	213
<b>Editors' Biographies</b> .....	219
