

Contents

Preface	vii
1. Introduction	1
2. Pyrolysis Processes for Production of Ethylene and Propylene	3
I. Introduction and General Trends	3
II. Fundamentals of Pyrolyses	8
III. Process Details	16
3. Production of Polyethylene	52
I. Polymer Structure and Process Introduction	52
II. High-Pressure Processes	60
III. Low-Pressure Processes	76
IV. Economics of Polyethylene Production	95
4. Production of Polypropylene	102
5. Production of Vinyl Chloride	129
6. Production of Polyvinyl Chloride Polymers	157
I. Introduction and Polymerization Fundamentals	157
II. Process Details	169
III. Economic Comparison of Processes	196
7. Processes for Styrene Production	201

8. Production of Polystyrene and Styrene Copolymers	232
I. Introduction and Process Considerations	232
II. Commercial Processes for Polystyrene	240
III. Commercial Processes for Styrene Copolymers	260

Index	281
