**PREFACE / vii**

**1. INTRODUCTION / 1**

Success and Limitation / 1
Background / 3
Activity-on-arrow and Activity-on-node Networks Compared / 4
References / 7

**2. NETWORK DEVELOPMENT AND BASIC CALCULATIONS / 9**

Drawing the Network / 9
Activity Numbers and Durations / 15
"Forward Pass" and "Backward Pass" Calculations / 17
Determining Float / 24

**3. CALENDAR DATING AND "SCHEDULING" / 26**

Adding Calendar Dates / 26
Activity Costing / 29
"Scheduling" / 29

**4. MONITORING THE NETWORK SCHEDULE / 33**

The Need for Schedule Updating / 33
Frequency of Updating / 34
Updating the Airstrip Project Network / 35
Revised Calculations / 37
The Revised Schedule / 41

**5. ANOTHER SAMPLE WITH SOME ADDED FRILLS / 43**

**6. PROJECT COSTING WITH ACTIVITY-ON-NODE NETWORKS / 50**

Cash Flow Projection / 50
Cost Reporting / 55

**7. COMPUTER PROCESSING OF ACTIVITY-ON-NODE SCHEDULING DATA / 59**

Network Calculation—By Hand or By Computer? / 59
Typical Computer Program Features / 61
- Loop Finding / 61
- Basic Network Calculations / 61
- Calendar Dating / 61
- Updating / 62
- Cost Calculations / 62
- Resource Scheduling / 62
- Activity Sorting / 63
- Plotting / 63

Survey of Available Activity-on-Node Computer Programs / 63
Computer Processing of Sample Project Data / 64
Ski Lodge Computer Analysis—Initial Run / 64
Ski Lodge Project Updating Run / 71
Computer Processing of Airstrip Project Network / 77
Interpreting the Output for the User / 83
Batch Processing Versus Time-Sharing—The Future / 86
References / 87

**APPENDIX / 89**

Available Computer Programs for Processing Activity-on-node Networks / 89

**INDEX / 95**
