

Contents

Introduction	1
Direct-Contact Cell-Culture Method —LINDA M. SMITH	5
Test Method for Human Cell-Culture Elution to Evaluate Medical Materials and Devices for Cytotoxicity —LINDA M. ETTORRE AND KATHY PHILLIPS	12
Tissue-Culture Methods for Determining Biocompatibility —JUDY FEHN AND DENISE SCHOTTLER	19
Tissue-Culture Biocompatibility Testing Program —HUGH J. JOHNSON AND SHARON J. NORTHUP	25
Evaluation of Materials Used for the Fabrication of Medical Devices: Cytotoxicity Testing —CHARLES R. HORRES, HAMILTON G. MEARS, ROGER E. WILSNACK, AND GEORGE E. MOORE	35
Primary Acute Toxicity Screen for Biomaterials: Rationale, In Vitro/In Vivo Relationship and Interlaboratory Performance —ELWOOD O. DILLINGHAM	51
Cytotoxicity Testing: Prediction of In Vivo Toxicity from In Vitro Tests —THOMAS F. GENOVA, STANKO BODNAR, MARYELLEN VACCARELLA, CAROL STAFFORD, AND KATHLEEN M. SCHADY	71
Assessment of Biocompatibility of Orofacial Materials and Devices by Culturing with Human Excised Donor Tissues —JOHN F. LONTZ, MARY D. NADIJCKA, AND RICHARD HOLMES	77
Cell-Culture Cytotoxicity Testing of Candidate Device Materials —STEVEN G. MEYERS, MICHAEL B. O'CONNELL, AND MICHAEL S. KORCZYNSKI	88
The Chromium-51 Release Cytotoxicity Test: Comparison to the Agar Overlay and Cell-Growth Inhibition Tests —DENIS A. MAGOFFIN, DEBRA L. KUSHELL, AND RICHARD J. SCHLESINGER	94

In Vitro Toxicity Testing: A Quantitative Microassay— JUDITH B. ULREICH AND MILOS CHVAPIL	102
Availability and Standardization of Cell Lines at the American Type Culture Collection: Current Status and Prospects for the Future— ROBERT J. HAY	114
Workshop on Cell-Culture Test Methods— STANLEY A. BROWN, THOMAS D. NICKEL, AND THOMAS W. WALKER	127
Summary	155
Index	159
