

# Blueprint ONE

This **Blueprint One Tests** book contains a series of eight write-in tests, each covering five units of the Blueprint One course and, for consolidation purposes, two revision tests after every twenty units. The book tests the major language items commonly studied at beginner and false beginner level.

**Blueprint One Tests** provides:

- separate labelled sections within each test, designed to focus on the key learning areas of Grammar, Communication and Vocabulary
- two revision tests focussing on each of these areas and, in addition, the skills of Reading and Writing
- a clear scoring system, accompanied by a score chart at the end of the book, to enable students and teachers to monitor progress effectively
- a free separate key for teachers, complete with notes on how to administer the tests in the most effective way.

**Blueprint One Tests** can be used alongside the Blueprint One course, or as additional testing material to complement any beginner or false beginner coursebook.

**Blueprint One** is a fully-integrated course for students of English who are complete beginners, and for those who already have some knowledge of the language.

**Blueprint One components:**
