

# TABLE OF CONTENTS

## Volume I

|  |     |
|--|-----|
| Chapter 1<br>Biomaterials and Biocompatibility .....   | 1   |
| <b>D. F. Williams</b>  |     |
| <b>PRINCIPLES OF CORROSION AND DEGRADATION OF MATERIALS</b>  |     |
| Chapter 2<br>Electrochemical Aspects of Corrosion in the Physiological Environment .....               | 11  |
| <b>D. F. Williams</b>  |     |
| Chapter 3<br>Degradation of Polymers: Mechanisms and Implications for Biomedical<br>Applications ..... | 43  |
| <b>D. K. Gilding</b>   |     |
| Chapter 4<br>Stability of Ceramics in the Physiological Environment .....                              | 67  |
| <b>L. L. Hench</b>   |     |
| Chapter 5<br>The Fate of Natural Tissue Prostheses .....   | 87  |
| <b>M. Chvapil</b>  |     |
| <b>THE CELLULAR RESPONSE TO IMPLANTED MATERIALS</b>  |     |
| Chapter 6<br>The Tissue Response at Implant Sites .....  | 107 |
| <b>G. Meachim and R. B. Pedley</b>   |     |
| Chapter 7<br>The Response of the Macrophage to Foreign Material .....                                  | 145 |
| <b>T. J. Chambers</b>  |     |
| Chapter 8<br>Cell Biochemistry in Relation to the Inflammatory Response to Foreign<br>Materials .....  | 159 |
| <b>T. Rae</b>  |     |
| Index .....  | 183 |
