

TABLE OF CONTENTS

Volume I

Chapter 1 Biomaterials and Biocompatibility	1
D. F. Williams	
PRINCIPLES OF CORROSION AND DEGRADATION OF MATERIALS	
Chapter 2 Electrochemical Aspects of Corrosion in the Physiological Environment	11
D. F. Williams	
Chapter 3 Degradation of Polymers: Mechanisms and Implications for Biomedical Applications	43
D. K. Gilding	
Chapter 4 Stability of Ceramics in the Physiological Environment	67
L. L. Hench	
Chapter 5 The Fate of Natural Tissue Prostheses	87
M. Chvapil	
THE CELLULAR RESPONSE TO IMPLANTED MATERIALS	
Chapter 6 The Tissue Response at Implant Sites	107
G. Meachim and R. B. Pedley	
Chapter 7 The Response of the Macrophage to Foreign Material	145
T. J. Chambers	
Chapter 8 Cell Biochemistry in Relation to the Inflammatory Response to Foreign Materials	159
T. Rae	
Index	183

Volume II

PRINCIPLES OF TOXICOLOGY

Chapter 1 The Metabolic Fate of Foreign Compounds	3
A. deBruin	

Chapter 2
Toxicology of Implanted Metals.....45
D. F. Williams

Chapter 3
Toxicological Aspects of Implantable Plastics and Plastics Used in Medical and
Paramedical Applications63
J. Autian

Chapter 4
Toxicology of Ceramics87
D. F. Williams

Chapter 5
The Relationship Between Biocompatibility and General Toxicity.....95
D. F. Williams

SPECIFIC BIOMATERIAL-TISSUE INTERACTIONS

Chapter 6
Adsorption of Proteins on Polymers and Its Role in the Response of Soft
Tissue113
D. F. Williams and R. D. Bagnall

Chapter 7
Biodegradation in the Human Body129
D. F. Williams

Chapter 8
Localized Tissue Infection and the Influence of Foreign Bodies139
T. Rae

Chapter 9
Immunological Aspects of Biomaterials159
M. W. Elves

Chapter 10
Tumor Induction by Implant Materials.....175
R. B. Pedley, G. Meachim, and D. F. Williams

THE EVALUATION OF BIOCOMPATIBILITY

Chapter 11
The Biocompatibility of Human Implants205
J. M. Anderson

Chapter 12
Tissue Culture Methods for Evaluating Biocompatibility of Polymers.....219
J. A. Styles

Chapter 13
Enzyme Histochemistry of the Cellular Response to Implants 233
T. N. Salthouse and B. F. Matlaga

Chapter 14
The Use of the Rabbit Ear Chamber for Testing Biomaterials with Special References
to Dental Materials 259
I. A. Silver and G. F. Howden

Index 267
