

Table of Contents

How to Use this Book	Inside Front Cover		
Selection Guide Organization	1		
General Introduction	2		
Selection Trees			
Digital-to-Analog Converters	4		
Analog-to-Digital Converters	8		
V/F and F/V Converters	12		
Motion Control Products	13		
Sample/Track-Hold Amplifiers	14		
Voltage References	15		
Analog Switches	16		
Analog Multiplexers	17		
Comparators	18		
Operational Amplifiers	19		
Instrumentation Amplifiers	24		
Isolation Amplifiers	25		
Multipliers/Dividers	26		
RMS-to-DC Converters	27		
Signal Conditioning Components & Subsystems	28		
Digital Signal Processing Components	29		
Analog I/O Ports	30		
Automotive Components	31		
Audio Products	32		
Communications Products	33		
Selection Guides			
Digital-to-Analog Converters			
Single DACs, Current Output	34		
Single DACs, Voltage Output	36		
Video Graphics DACs	37		
Multiple DACs, Voltage Output	38		
Multiple DACs, Current Output	40		
LOGDACs™	40		
Analog-to-Digital Converters			
High Speed ADCs	41		
Sampling ADCs	42		
Nonsampling ADCs	44		
Sigma-Delta ADCs	46		
Multiplexed ADCs	47		
V/F and F/V Converters			
Voltage-to-Frequency Converters	48		
Frequency-to-Voltage Converters	48		
Motion Control Products			
Digital-to-Synchro & Resolver Converters	49		
Motor Control	49		
Synchro/Resolver Support Components	49		
Synchro, Resolver, Inductosyn & LVDT-to-Digital Converters	50		
Sample/Track-Hold Amplifiers	52		
Voltage References	53		
Analog Switches & Multiplexers			
CMOS Switches	54		
Bipolar JFET Switches	54		
CMOS Multiplexers	55		
Bipolar JFET Multiplexers	55		
Video Multiplexer	55		
Comparators	56		
Matched Transistors	56		
Operational Amplifiers			
Low Noise Amplifiers	57		
High Speed Amplifiers	58		
Single Supply Amplifiers	59		
Precision Amplifiers	60		
Low Cost, General Purpose Amplifiers	62		
Low Power/Micropower Amplifiers	63		
Low Input Current Amplifiers	64		
Quad Operational Amplifiers	64		
Dual Operational Amplifiers	65		
Unity Gain Buffers	66		
Programmable-Gain Amplifiers	66		
Instrumentation Amplifiers	67		
Isolation Amplifiers	67		
Analog Multipliers/Dividers			
Multipliers/Dividers	68		
Modulator/Demodulator	68		
Signal Compression Components	68		
RMS-to-DC Converters	69		
Special Function Components	69		
Temperature Transducers	69		
Signal Conditioning Components & Subsystems	70		
Digital Signal Processing Components			
Fixed-Point Multipliers	71		
Multiplier/Accumulators	71		
Floating-Point Components	71		
Microcoded Support Components	72		
Processors and Development Tools	72		
Data Acquisition Subsystems	74		
Digital Panel Meters	74		
Complete Analog I/O Ports			
General Purpose	75		
Disk Drive Servo	75		
Communications	75		
ATE Components			
Pin Drivers	76		
Comparators	76		
Active Load	76		
Delay Generators	76		
Parametric Measurement Components	77		
Level-Setting Components	77		
Multiplexer	77		
Mass Storage Components			
Optical Storage Component	78		
Magnetic Storage Components	78		
Servo Components	78		
Automotive Components	78		
Audio Products			
Audio Preamplifiers	79		
Voltage Controlled Amplifiers	79		
Other Audio Products	79		
Communications Products			
Analog I/O Ports	80		
Analog Filters	80		
Frequency Synthesis	81		
Telecommunications	81		
Line Drivers/Receivers	81		
Application Specific Integrated Circuits	82		
Power Supplies			
Modular AC/DC Power Supplies	86		
Modular DC/DC Converters	87		
Component Test Systems	88		
New Products	90		
Military Products			
Standard Military Drawings	115		
MIL-STD-883 Class B	121		
JAN QPL Class B	122		
JAN QPL Class S	123		
Product Families Still Available	124		
Product Families No Longer Available	125		
Technical Publications	128		
Worldwide Sales Directory	132		
Product Index	134
