

Contents

Volume 1

Section I Genetics

Fred Levine

Chapter 1 Genetics 1

Fred Levine

Section II Embryology

Allen S. Goldman and Stanley Kaplan

Chapter 2 Embryology 19

Stanley Kaplan and David L. Bolender

Chapter 3 Regulation of Embryogenesis 37

Harold C. Slavkin

Section III The Placenta

Kurt Benirschke

Chapter 5 Placental Development 59

Peter Kaufmann and Iris Scheffen

Chapter 6 Regulation of the Placental Circulation 70

Charles R. Rosenfeld

Chapter 7 Mechanisms of Transfer Across the Human Placenta 77

Colin P. Sibley and Robert D. H. Boyd

Chapter 8 Endocrine and Paracrine Function of the Human Placenta 89

Theresa M. Siler-Khodr

Chapter 4 Pathophysiology of Congenital Malformations 47

Allen S. Goldman

Chapter 9 Placental Proteins 103

Claus Oxvig, Jesper Haanig, Jill M. Wagner, Lars Sottrup-Jensen, and Gerald J. Gleich

Chapter 10 Placental Separation at Birth 114

Kurt Benirschke

Chapter 11 Multiple Pregnancy 115

Kurt Benirschke

1

19

59

Section IV		
Developmental Pharmacology and Pharmacokinetics		125
<i>Jacob V. Aranda</i>		
Chapter 12	Chapter 19	
Basic Pharmacologic Principles 125	Developmental Pharmacology of Adrenergic Agents 194	
<i>Sylvain Chemtob</i>	<i>James F. Padbury and Robert A. Berg</i>	
Chapter 13	Chapter 20	
Basic Pharmacokinetic Principles 137	Maternal Drug Abuse: Effects on the Fetus and Neonate 203	
<i>Gerhard Heimann</i>	<i>Ernest A. Kopecky and Gideon Koren</i>	
Chapter 14	Chapter 21	
Physicochemical and Structural Properties Regulating Placental Drug Transfer 146	Sympathoadrenal Mechanisms During Development 220	
<i>Heinz Nau and Sabine Luise Plonait</i>	<i>Hugo Lagercrantz</i>	
Chapter 15	Chapter 22	
Genetic Regulation of Drug Metabolism 161	Developmental Neuropharmacology 226	
<i>Denis M. Grant and Stephen P. Spielberg</i>	<i>Walter Lichtensteiger</i>	
Chapter 16	Chapter 23	
Drug Distribution During Fetal Life 169	Physiologic Differences of Clinical Significance 239	
<i>Linda L. Wright and Charlotte S. Catz</i>	<i>Beth A. Nagourney and Jacob V. Aranda</i>	
Chapter 17	Chapter 24	
Fetal and Neonatal Development of Hormone Receptors 176	Therapeutic Drug Monitoring in the Newborn 250	
<i>Claude Marcus, Mikael Brönnegård, and Jan Carlstedt-Duke</i>	<i>Peter Gal and Michael D. Reed</i>	
Chapter 18	Chapter 25	
Development of Renal Excretion of Drugs During Ontogeny 188	Drug Excretion During Lactation 256	
<i>Eunice G. John and Jean-Pierre Guignard</i>	<i>Michael J. Rieder</i>	
Section V		
Intrauterine Growth and Nutrition		267
<i>John W. Sparks</i>		
Chapter 26	Chapter 30	
Intrauterine Growth and Nutrition 267	Energy Requirements 307	
<i>John W. Sparks, John C. Ross, and Irene Cetin</i>	<i>Scott C. Denne</i>	
Section VI	Chapter 31	
Postnatal Growth and Nutrition	Protein Requirements 315	
<i>Gilberto R. Pereira</i>		
Chapter 27	Chapter 32	
Infant Growth in the First Year of Life 291	Carbohydrate Requirements 325	
<i>John W. Sparks</i>	<i>Scott C. Denne</i>	
Chapter 28		
Endocrine and Other Factors Affecting Growth 295		
<i>William E. Russell</i>		
Chapter 29		
Water Requirements 305		
<i>Edward A. Liechty</i>		
		291

Chapter 33
Fat Metabolism and Requirements 328
Catherine A. Leitch

Chapter 34
Minerals and Trace Elements 332
Judith A. Ernst and Patricia R. Neal

Chapter 35
Vitamin Requirements 344
J. Roberto Moran and Harry L. Greene

Chapter 36
Human Milk Composition and Function in the Infant 353
Margit Hamosh

Section VII **Perinatal Iron, Trace Minerals, and Vitamin Metabolism** **401**

Gilberto R. Pereira

Chapter 40
Fetal and Neonatal Iron Metabolism 401
Sixto F. Guiang III and Michael K. Georgieff

Chapter 41
Trace Element Metabolism in the Fetus and Neonate 410
Eileen E. Tyrala

Chapter 42
Vitamin A in Preterm Infants 420
Harry L. Greene

Section VIII **Lipid Metabolism in the Fetus and Newborn** **447**

Margit Hamosh

Chapter 45
Maternal-Fetal Transfer of Lipid Metabolites 447
Emilio Herrera, Bartolome Bonet, and Miguel Angel Lasunción

Chapter 46
Accretion of Lipid in the Fetus and Newborn 458
John E. Van Aerde, Miguel Feldman, and M. Thomas Clandinin

Chapter 47
Brown Adipose Tissue: Development and Function 478
Jan Nedergaard and Barbara Cannon

Chapter 48
Lipids as an Energy Source for the Premature and Full-Term Neonate 489
G. Putet

Chapter 49
Ketone Body Production and Metabolism in the Fetus and Newborn 493
Dermot H. Williamson

Chapter 37
Types and Methods of Feeding for Infants 363
Judith A. Ernst and Steven J. Gross

Chapter 38
Nutritional Assessment 383
Gilberto R. Pereira and Michael K. Georgieff

Chapter 39
Growth Outcome of Critically Ill Neonates 394
Susan A. Friedman and Judy C. Bernbaum

Chapter 43
Vitamin E Nutrition in the Fetus and Newborn 425
Lois Johnson

Chapter 44
Vitamin K Metabolism During the Fetal and Neonatal Periods 442
Reidar Wallin and Susan M. Hutson

Chapter 50
Very Long Chain Fatty Acids in the Developing Retina and Brain 504
Susan E. Carlson

Chapter 51
Physiologic Effects of Lipid Infusions 514
Gary E. Stahl, Michael L. Spear, and Margit Hamosh

Chapter 52
Developmental Physiology of Serum Cholesterol and Lipoprotein Concentrations 527
Glen E. Mott

Chapter 53
Lipoprotein Lipase 535
Ignasi Ramírez, Xavier Galan, Julia Peinado-Onsurbe, and Miquel Llobera

Section IX **Carbohydrate Metabolism**

Edward S. Ogata

Chapter 54

Metabolism of Glucose in the Fetus and Newborn 543

Satish C. Kalhan and Chitra V. Raghavan

Chapter 55

Maternal Metabolism During Pregnancy 559

Edward S. Ogata

Chapter 56

Carbohydrate Metabolism in the Fetus 560

Anthony F. Philippis

Chapter 57

Role of Glucoregulatory Hormones in Hepatic Glucose Metabolism During the Perinatal Period 574

Michael R. Narkewicz and Jean Girard

Chapter 58

Cell Glucose Transport and Glucose Handling During Fetal and Neonatal Development 585

Rebecca A. Simmons

Chapter 59

Glucose Metabolism During the Transition to Postnatal Life 592

James F. Padbury and Edward S. Ogata

Chapter 60

Hypoglycemia and Hyperglycemia in the Newborn 596

Richard M. Cowett

Section X

Protein Metabolism

Marc Yudkoff

Chapter 61

General Concepts of Protein Metabolism 609

Dwight E. Matthews

Chapter 64

Protein Metabolism in the Newborn 642

Jean-L. Micheli, Yves Schutz, and Eric Jéquier

Chapter 62

Fetal Requirements and Placental Transfer of Nitrogenous Compounds 619

William W. Hay, Jr.

Chapter 65

Protein and Amino Acid Requirements 654

William C. Heird and Sudha Kashyap

Chapter 63

Nitrogen Sources for the Newborn 635

Stephanie A. Atkinson

Chapter 66

Modification of Protein Metabolism Because of Disease 665

Naomi K. Fukagawa and Dennis M. Bier

Section XI

Thermoregulation

Stephen Baumgart

Chapter 67

Perinatal Thermal Physiology 671

Gordon G. Power

Chapter 69

Physics and Physiology of Human Neonatal Incubation 702

Gunnar Sedin

Chapter 68

Neonatal Thermal Regulation 676

Kurt Brück

Chapter 70

Environmental Temperature Control 716

Edward F. Bell and Margit-Andrea Glatzl-Hawlik

609

671

543

Section XII
Skin**729***Nancy Esterly***Chapter 71****Structural and Biochemical Organogenesis of Skin and Cutaneous Appendages in the Fetus and Newborn** 729*Karen A. Holbrook***Chapter 72****Development of the Cutaneous Circulation** 752*Terence J. Ryan***Chapter 73****Composition of Skin Lipids** 762*Mary L. Williams***Chapter 74****Sweating in the Neonate** 767*Anthony J. Mancini and Alfred T. Lane***Section XIII****Fetal and Neonatal Cardiovascular Physiology****793***Michael Gewitz and Joseph B. Philips III***Chapter 78****Development of the Fetal Heart** 793*Margaret L. Kirby***Chapter 79****Molecular Determinants of Embryonic Vascular Development** 801*H. Scott Baldwin***Chapter 80****Role of Peptide Growth Factors in Cardiovascular Development and Remodeling** 814*Namasivayam Ambalavanan, Gonzalo L. Mariani, and Joseph B. Philips III***Chapter 81****Physiologic Development of the Cardiovascular System in the Fetus** 827*David F. Teitel***Chapter 81A****Cardiovascular Function During Normal Fetal and Neonatal Development and with Hypoxic Stress** 837*Page A. W. Anderson, Charles S. Kleinman, George Lister, and Norman S. Talner***Chapter 82****Developmental Electrophysiology in the Fetus and Neonate** 891*Arthur S. Pickoff***Chapter 75****pH Patterns in Newborn Skin** 770*Nancy B. Esterly***Chapter 76****Skin Barrier Function** 771*Patrick H. T. Cartlidge and Nicholas Rutter***Chapter 77****Bacterial Colonization of the Skin of the Newborn** 788*James J. Leyden***Chapter 83****Developmental Biology of the Pulmonary Vasculature** 913*Marlene Rabinovitch***Chapter 84****Development of the Pulmonary Circulation: Metabolic Aspects** 924*Rajamma Mathew***Chapter 85****Development of the Gastrointestinal Circulation in the Fetus and Newborn** 929*David A. Clark and Mark J. S. Miller***Chapter 86****Regulation of the Fetal Cerebral Circulation** 933*L. Craig Wagerle and M. Douglas Jones, Jr.***Chapter 87****Autonomic and Central Neuroregulation of Fetal Cardiovascular Function** 943*Walker A. Long, G. William Henry, and Anibal J. Llanos***Chapter 88****Endocrine Regulation of the Fetal Circulation** 961*Harriet S. Iwamoto***Chapter 89****Nitric Oxide and the Perinatal Pulmonary Circulation** 970*Jesse D. Roberts, Jr.*

Chapter 90 Regulation of Umbilical Blood Flow 977 <i>S. Lee Adamson, Leslie Myatt, and Bridgette M. P. Byrne</i>	Chapter 93 Response of the Fetal Circulation to Stress 1014 <i>Minakshi Sukumar and Frederick C. Morin III</i>
Chapter 91 Fetal and Placental Circulation During Labor 989 <i>Karel Marsál</i>	Chapter 94 Physiology of Resuscitation 1023 <i>David J. Burchfield</i>
Chapter 92 Cardiovascular Diagnosis in the Fetus and the Effects of Congenital Heart Lesions on Developing Physiology 996 <i>A. Rebecca Snider</i>	
Section XIV The Lung	1033
<i>Eduardo Bancalari</i>	
Chapter 95 Normal and Abnormal Structural Development of the Lung 1033 <i>W. Alan Hodson</i>	Chapter 104 Pathophysiology of Apnea of Prematurity 1129 <i>Martha J. Miller and Richard J. Martin</i>
Chapter 96 Formation of Fetal Lung Liquid and Its Removal Near Birth 1047 <i>Richard D. Bland</i>	Chapter 105 Evaluation of Pulmonary Function in the Neonate 1143 <i>Vinod K. Bhutani, Emidio M. Sivieri, and Soraya Abbasi</i>
Chapter 97 Structure and Function of the Upper Airway in Neonates 1055 <i>Shahnaz Duara</i>	Chapter 106 Pathophysiology of Hyaline Membrane Disease (Excluding Surfactant) 1165 <i>Robert B. Cotton</i>
Chapter 98 Regulation of Lower Airway Function 1060 <i>John T. Fisher, Musa A. Haxhiu, and Richard J. Martin</i>	Chapter 107 Pathophysiology of Lung Injury and Repair: Special Features of the Immature Lung 1175 <i>Lee Frank, Ilene R. S. Sosenko, and Jeffrey Gerdes</i>
Chapter 99 Functional Development of Respiratory Muscles 1071 <i>Timothy Murphy and David Woodrum</i>	Chapter 108 Pathophysiology of Chronic Lung Disease 1188 <i>Eduardo Bancalari</i>
Chapter 100 Mechanics of Breathing 1085 <i>Jacopo P. Mortola</i>	Chapter 109 Assisted Ventilation: Physiologic Implications and Complications 1193 <i>Jay S. Greenspan, Thomas H. Shaffer, William W. Fox, and Alan R. Spitzer</i>
Chapter 101 Pulmonary Gas Exchange in the Developing Lung 1094 <i>William Edward Truog</i>	Chapter 110 Physiology of High-Frequency Ventilation 1212 <i>David J. Durand and Jeanette M. Asselin</i>
Chapter 102 Oxygen Transport and Delivery 1105 <i>Maria Delivoria-Papadopoulos and Jane E. McGowan</i>	Chapter 111 Liquid Ventilation 1219 <i>Thomas H. Shaffer and Marla R. Wolfson</i>
Chapter 103 Control of Breathing in Fetal Life and Onset and Control of Breathing in the Neonate 1118 <i>Henrique Rigatto</i>	Chapter 112 Physiology of Extracorporeal Membrane Oxygenation 1243 <i>Billie Lou Short</i>
