## Table of Contents

<i>Preface</i> .....	<i>xi</i>
<i>Chapter 1—Introduction</i> .....	<i>1</i>
The Excitement of Linux .....	1
Distribution and Support .....	2
Commands on Linux .....	3
What This Book Offers .....	3
Sources and Licenses .....	5
<i>Chapter 2—Linux User Commands</i> .....	<i>7</i>
<i>Chapter 3—The Unix Shells: An Overview</i> .....	<i>163</i>
Purpose of the Shell .....	163
Shell Flavors .....	164
Common Features .....	165
Differing Features .....	166
<i>Chapter 4—bash: The Bourne Again Shell</i> .....	<i>167</i>
Overview of Features .....	167
Invoking the Shell .....	168
Syntax .....	169
Variables .....	177
Arithmetic Expressions .....	180
Command History .....	180

Built-in Commands .....	182
Job Control .....	201
<i>Chapter 5—csh and tcsh</i> .....	203
Overview of Features .....	203
Invoking the Shell .....	204
Syntax .....	205
Variables .....	208
Expressions .....	217
Command History .....	219
Command-Line Manipulation .....	222
Built-in csh and tcsh Commands .....	227
Job Control .....	246
<i>Chapter 6—Pattern Matching</i> .....	247
Filenames Versus Patterns .....	247
Metacharacters, Listed by Linux Program .....	248
Metacharacters .....	249
Examples of Searching .....	250
<i>Chapter 7—The Emacs Editor</i> .....	253
Introduction .....	253
Typical Problems .....	253
Summary of Commands by Group .....	255
Summary of Commands by Key .....	260
Summary of Commands by Name .....	264
<i>Chapter 8—The vi Editor</i> .....	269
Review of vi Operations .....	269
Movement Commands .....	272
Edit Commands .....	273
Saving and Exiting .....	275
Accessing Multiple Files .....	275
Interacting with the Shell .....	276
Macros .....	276
Miscellaneous Commands .....	277
Alphabetical List of Keys .....	277
Setting Up vi .....	279

<i>Chapter 9—The ex Editor</i> .....	284
Syntax of ex Commands .....	284
Alphabetical Summary of ex Commands .....	286
<i>Chapter 10—The sed Editor</i> .....	295
Conceptual Overview .....	295
Command-Line Syntax .....	296
Syntax of sed Commands .....	296
Group Summary of sed Commands .....	297
Alphabetical Summary of sed Commands .....	298
<i>Chapter 11—The gawk Scripting Language</i> .....	306
Conceptual Overview .....	306
Command-Line Syntax .....	307
Patterns and Procedures .....	309
gawk System Variables .....	311
Operators .....	312
Variables and Array Assignments .....	312
Group Listing of gawk Commands .....	313
Alphabetical Summary of Commands .....	313
<i>Chapter 12—Programming Overview and Commands</i> .....	320
Common Commands .....	320
Alphabetical Summary of Commands .....	321
<i>Chapter 13—RCS and CVS</i> .....	361
The RCS Utility .....	361
Overview of Commands .....	361
Basic Operations .....	362
General RCS Specifications .....	363
Alphabetical Summary of Commands .....	366
The CVS Utility .....	376
CVS Overview .....	376
Common Command Options .....	381
CVS Commands .....	382

<i>Chapter 14—Perl 5 Quick Reference</i> .....	392
Introduction .....	392
Conventions .....	392
Command-Line Options .....	393
Syntax .....	394
Embedded Documentation .....	394
Data Types .....	395
Literal Values .....	395
Variables .....	396
Context .....	397
Operators and Precedence .....	398
Statements .....	399
Subroutines, Packages, and Modules .....	400
Object-Oriented Programming .....	402
Standard Methods .....	402
Pragmatic Modules .....	402
Arithmetic Functions .....	404
Conversion Functions .....	404
Structure Conversion .....	405
String Functions .....	405
Array and Hash Functions .....	406
Regular Expressions .....	408
Search and Replace Functions .....	410
File Test Operators .....	411
File Operations .....	412
Input/Output .....	413
Formatted Printing .....	415
Formats .....	416
Tying Variables .....	417
Directory Reading Routines .....	418
System Interaction .....	418
Networking .....	420
System V IPC .....	420
Miscellaneous .....	421
Information from System Databases .....	422
Special Variables .....	425
Special Arrays .....	426
Special Hashes .....	427
Standard Modules .....	427
Environment Variables .....	433
Multithreading .....	434

The Perl Compiler .....	434
The Perl Debugger .....	435
 <i>Chapter 15—System and Network Administration</i>	
<i>Overview</i> .....	438
Common Commands .....	438
Networking Overview .....	443
Overview of TCP/IP .....	444
Overview of Firewalls and Masquerading .....	449
Overview of NFS .....	451
 <i>Chapter 16—System and Network Administration</i>	
<i>Commands</i> .....	455
Alphabetical Summary of Commands .....	455
 <i>Chapter 17—Boot Methods</i> .....	
The Boot Process .....	572
LILO: The Linux Loader .....	573
Loadlin: Booting from MS-DOS .....	583
Dual-Booting Linux and Windows NT .....	585
Boot-Time Kernel Options .....	587
initrd: Using a RAM Disk .....	589
 <i>Index</i> .....	 591
