Introduction

xi

Unit 1 The Compartments of the Body

I: READING AND COMPREHENSION	1
Solutions to the comprehension problems	2
EXERCISE A: Contextual reference	3
EXERCISE B: Rephrasing	3
EXERCISE C: Relationships between statements	4
II: USE OF LANGUAGE	
EXERCISE A: The description of structure	4
EXERCISE B: Defining and non-defining relative clauses	6
EXERCISE C: Relative clauses with prepositions	8
III: INFORMATION TRANSFER	
1. Section of a tooth	9
2. The main bones of the upper limb	10
3. The basic structure of the skin	10
IV: GUIDED WRITING	
Stage 1: Sentence building	11
Stage 2: Paragraph building	12
Stage 3: Paragraph reconstruction	12
V: FREE READING : <i>The measurement of the compartments of the body</i>	13

Unit 2 Sources of Energy

I: READING AND COMPREHENSION	14
Solutions to the comprehension problems	15
EXERCISE A: Contextual reference	16

EXERCISE B: Rephrasing	16
EXERCISE C: Relationships between statements	16
II: USE OF LANGUAGE	
EXERCISE A: <i>absorb, store, convert</i>	17
EXERCISE B: Listing (i)	18
EXERCISE C: Short-form relative clauses (i)	19
EXERCISE D: Short-form relative clauses (ii)	20
EXERCISE E: Short-form relative clauses (iii)	21
III: INFORMATION TRANSFER: The percentage of daily requirements in beef, haddock and milk	22
IV: GUIDED WRITING	
Stage 1: Sentence building	23
Stage 2: Paragraph building	24
Stage 3: Paragraph reconstruction	24
V: FREE READING: <i>The process of digestion</i>	24

Unit 3 Gross Anatomy of the Trunk

I: READING AND COMPREHENSION	26
Solutions to the comprehension problems	27
EXERCISE A: Contextual reference	28
EXERCISE B: Rephrasing	29
EXERCISE C: Analysis into lists	29
II: USE OF LANGUAGE	
EXERCISE A: The anatomical position	30
EXERCISE B: Locative adjectives	31
EXERCISE C: Locative verbs	32
EXERCISE D: Locative prepositions	33
EXERCISE E: Locative prefixes	34
III: INFORMATION TRANSFER	
1. The stomach	35
2. The oesophagus	36
3. The bones of the lower limb	36
IV: GUIDED WRITING	
Stage 1: Sentence building	37
Stage 2: Paragraph building	38
Stage 3: Paragraph reconstruction	38
V: FREE READING: <i>The thoracic cavity</i>	39

Unit 4 Epithelial tissue

I: READING AND COMPREHENSION	41
Solutions to the comprehension problems	42
EXERCISE A: Contextual reference	44

EXERCISE B: Rephrasing	44
EXERCISE C: Relationships between statements	44
II: USE OF LANGUAGE	
EXERCISE A: Verbs of naming	45
EXERCISE B: Naming by <i>or</i>	46
EXERCISE C: The present participle and the past participle as modifiers	47
EXERCISE D: Participles as modifiers and short-form relative clauses	48
EXERCISE E: Anatomical terms (<i>surround, line, surface, etc.</i>)	48
III: INFORMATION TRANSFER	
1. Section of a movable joint	50
2. Section of the brain and meninges	51
3. Section through the integument of a leg	51
IV: GUIDED WRITING	
Stage 1: Sentence building	52
Stage 2: Paragraph building	53
Stage 3: Paragraph reconstruction	53
V: FREE READING: <i>Connective tissue</i>	53
Unit 5: The Study of Cell Structure	
I: READING AND COMPREHENSION	55
Solutions to the comprehension problems	56
EXERCISE A: Contextual reference	58
EXERCISE B: Rephrasing	58
EXERCISE C: Relationships between statements	59
II: USE OF LANGUAGE	
EXERCISE A: <i>study, use, improve, etc.</i>	59
EXERCISE B: Passives without an agent	<u>60</u>
EXERCISE C: Passives with an agent, expressed or unexpressed	61
EXERCISE D: The impersonal use of <i>it</i>	61
EXERCISE E: Nouns formed from verbs	62
III: INFORMATION TRANSFER: The optical and the electron microscopes	63
IV: GUIDED WRITING	
Stage 1: Sentence building	65
Stage 2: Paragraph building	66
Stage 3: Paragraph reconstruction	67
V: FREE READING: <i>Techniques in the study of cell structure</i>	67
Unit 6 The Heart	
I: READING AND COMPREHENSION	69
Solutions to the comprehension problems	70
EXERCISE A: Contextual reference	72

EXERCISE B: Rephrasing	72
EXERCISE C: Relationships between statements	73
II: USE OF LANGUAGE	
EXERCISE A: <i>pass, flow</i> and prepositions	73
EXERCISE B: The use of time expressions (i)	74
EXERCISE C: The use of time expressions (ii)	75
EXERCISE D: Listing (ii)	75
EXERCISE E: Compound adjectives	77
III: INFORMATION TRANSFER: Osmosis in a Capillary	79
IV: GUIDED WRITING	
Stage 1: Sentence and paragraph building	81
Stage 2: Paragraph reconstruction	82
V: FREE READING: <i>Heart action</i>	82

Unit 7 The Nervous System

I: READING AND COMPREHENSION	84
Solutions to the comprehension problems	86
EXERCISE A: Contextual reference	87
EXERCISE B: Rephrasing	88
EXERCISE C: Relationships between statements	88
II: USE OF LANGUAGE	
EXERCISE A: Listing (iii)	88
EXERCISE B: Combining sentences with an <i>-ing</i> clause	91
EXERCISE C: Short-form time clauses	92
EXERCISE D: Inversion	93
III: INFORMATION TRANSFER: The reflex arc	94
IV: GUIDED WRITING	
Stage 1: Sentence building	95
Stage 2: Paragraph building	96
Stage 3: Paragraph reconstruction	96
V: FREE READING: <i>Chemical transmission in the nervous system</i>	96

Unit 8 Summary and Extension Exercises

I: COMPREHENSION EXERCISES	99
II: USE OF LANGUAGE	
EXERCISE A: Stating function	101
EXERCISE B: <i>bring about, provide, facilitate</i>	102
EXERCISE C: <i>aid, assist, help, play an important part</i>	102
EXERCISE D: Active and passive verbs	103
III: INFORMATION TRANSFER	
EXERCISE A: Bones: description of shape	104

EXERCISE B: Nerves: origin, branches, and distribution	105
EXERCISE C: Muscles: description of action, origin, insertion, and innervation	106
EXERCISE D: Arteries: the aorta and its branches	109
EXERCISE E: Veins: the hepatic portal system	110
IV: ESSAY WRITING	111
