Acknowledgments	xiii

Microwave Processing: Steps to Successful Commercialization

Microwave Processing: Steps to Successful Commercialization— Panel Discussions.....	3
Willard H. Sutton	
Commercializing Microwave Systems: Paths to Success or Failure.....	7
Robert F. Schiffmann	
Commercialization: Steps to Successful Applications and Scale-Up.....	17
Bernard Krieger	
Process Commercialization: Don't Risk Losing the Benefits by Ignoring the Hazards.....	23
John F. Gerling	
Controlling and Understanding the Variables: Key to Commercializing Microwave Processing of Advanced Materials.....	29
Richard S. Garard	
Equipment Supplier's Role in Process Development.....	33
Eugene Eves	

Manufacturing with Microwaves

Commercialization of Microwave Processes	43
Murray J. Kennedy	
Microwave Sintering Kilogram Batches of Silicon Nitride	55
Prasad S. Apte and William D. MacDonald	
Parallam—New Structural Wood Composite	63
M.T. Churchland	
Microwave Enhanced Sintering of Ceramics.....	69
F.C.R. Wroe and A.T. Rowley	

Waste Remediation

- Microwave Technology for Waste Management Applications
Including Disposition of Electronic Circuitry 79
G.G. Wicks, D.E. Clark, R.L. Schulz, and D.C. Folz
- Radio Frequency Enhanced Soil Vapor Extraction for *in Situ*
Remediation 91
John A. Pearce, David E. Daniel, Jana Boerigter, and Andres Zuluaga
- Microwave Regeneration of Activated Carbon for Gold Processing
Applications 99
J.T. Strack, I.S. Balbaa, and B.T. Barber
- Microwave Treatment of Emissions from the Destruction of
Electronic Circuitry 107
R.L. Schulz, D.C. Folz, D.E. Clark, C.J. Schmidt, and G.G. Wicks

Processing Equipment

- Materials Processing via Variable Frequency Microwave Irradiation ... 117
Richard S. Garard, Zak Fathi, and J. Billy Wei
- Use of a Variable Frequency Source with a Single-Mode Cavity to
Process Ceramic Filaments 125
G.J. Vogt, A.H. Regan, A.S. Rohlev, and M.T. Curtin
- The Gyrotron System for Ceramics Sintering 133
Y. Bykov, A. Eremeev, V. Flyagin, V. Kaurov, A. Kuftin, A. Luchinin,
O. Malygin, I. Plotnikov, and V. Zapevalov
- Quasi-Optical Gyrotron Materials Processing at Los Alamos. 141
J.D. Katz and D.E. Rees
- Uniform Microwave Heating of Polymer Matrix Composites 149
V. Adegbite, L. Fellows, J. Wei, Y. Qiu, and M. Hawley
- Microwave Raytracing in Large Overmoded Industrial Resonators 159
L. Feher, G. Link, and M. Thumm
- Vibration Method for Tracking the Resonant Mode and Impedance
of a Microwave Cavity 167
M. Barmatz, O. Iny, T. Yiin, and I. Kahn

Microwave/Materials Interactions

- Microwave Absorption in Ionic Crystalline Ceramics with Various Concentrations of Point Defects. 177
Binshen Meng, John Booske, Reid Cooper, and Benjamin Klein
- Ionic Transport in Sodium Chloride and Silver Chloride During Microwave Irradiation 185
S.A. Freeman, J.H. Booske, and R.F. Cooper
- The Role of Space Charge for Microwave Sintering of Oxides 193
M. Willert-Porada
- Mechanical Properties of Alumina Sintered in a Microwave-Induced Oxygen Plasma 205
Hungchai Su, Guy E. Salinas, Steve Kim, Vinayak P. Dravid, and D. Lynn Johnson

Dielectric Properties

- What Is the Best Microwave Absorber? 215
R.M. Hutcheon, F.P. Adams, and M.S. de Jong
- Dielectric Property Measurement of Zirconia Fibers at High Temperatures 227
Gerald J. Vogt, Wayne R. Tinga, and Ross H. Plovnick
- High Temperature Dielectric Constant Measurement—Another Analytical Tool for Ceramic Studies? 235
R.M. Hutcheon, P. Hayward, B.H. Smith, and S.B. Alexander
- A Parallel Measurement Program in High-Temperature Dielectric Property Measurements: An Update 243
J. Batt, J.G.P. Binner, T.E. Cross, N.R. Greenacre, M.G. Hamlyn, R.M. Hutcheon, W.H. Sutton, and C.M. Weil
- Measurements of the Complex Permittivity of Low-Loss Ceramics at Microwave Frequencies and Over Large Temperature Ranges 251
Binshen Meng, John Booske, Reid Cooper, and Benjamin Klein

Process Modeling

- Dynamic Model for Electromagnetic Field and Heating Patterns in Loaded Cylindrical Cavities. 261
Y.L. Tian, W.M. Black, H.S. Sa'adaldin, I. Ahmad, and R. Silbergliitt

Mathematical Models of Microwave Heating: Bistability and Thermal Runaway	269
G.A. Kriegsmann	
Steady State Temperature Profile in a Cylinder Heated by Microwaves	279
H.W. Jackson, M. Barmatz, and P. Wagner	
Microwave Heating of a Changing Material	289
Daniel J. Skamser, Jeffrey J. Thomas, Hamlin M. Jennings, and D. Lynn Johnson	
Importance of Dielectric Properties in Modeling of Microwave Sintering of Ceramics	297
J.R. Thomas Jr.	
Modeling of Multi-Frequency Microwave Sintering of ZnO Ceramic... ..	305
A. Birman, B. Levush, Y. Carmel, D. Gershon, D. Dadon, L.P. Martin, and M. Rosen	
Temperature Distribution Considerations During Microwave Heating of Ceramics	313
Michael T.K. Koh, Rajiv K. Singh, and David E. Clark	
Finite Element Computer Model of Microwave Heated Ceramics	323
Liqiu Zhou, Gang Liu, Jian Zhou, and Jipeng Cheng	

Joining

Microwave Joining of Engineering Ceramics	335
J.G.P. Binner, P.A. Davis, T.E. Cross, and J.A. Fernie	
Open Coaxial Microwave Spot Joining Applicator	347
W.R. Tinga, J.D. Xu, and F.E. Vermeulen	
Microwave-Assisted Pyrolysis of SiC and Its Application to Joining ...	357
I. Ahmad, R. Silbergliitt, T.A. Shan, Y.L. Tian, and R. Cozzens	
Microwave Joining of Alumina Both Directly and with 2223 Superconductor Interlayers	367
J. Cai, B.S. Li, H.R. Zhuang, J.K. Guo, and Y.L. Tian	
Automatic Control During Microwave Heating of Ceramics	373
Mengli Li, Guy O. Beale, and Yong Lai Tian	
Microwave Joining of Zinc Sulfide	381
R.R. Di Fiore and D.E. Clark	
Apparatus for the Joining of Ceramics Using Microwave Hybrid Heating	389
A.D. Cozzi, D.E. Clark, M.K. Ferber, and V.J. Tennery	

Processing and Thermal Effects

- Characterization of Microwave Processed ZnO 399
L.P. Martin, D. Dadon, D. Gershon, B. Levush, Y. Carmel, and M. Rosen
- Microwave Sintering of Nanocrystalline Ceramics 407
R.W. Bruce, A.W. Fliflet, L.K. Kurihara, D. Lewis III, R. Rayne, G.-M. Chow,
P.E. Schoen, B.A. Bender, and A.K. Kinkead
- Effect of Microwave Heating on the Sintering of Silicon Nitride
Doped with Al₂O₃ and Y₂O₃ 415
Yoon Chang Kim, Sang Cheol Koh, Do Kyung Kim, and Chong Hee Kim
- Guidelines for Large Scale MW-Processing of Hardmetals. 423
T. Gerdes, M. Willert-Porada, K. Rödiger, and H. Kolaska
- Microwave Processing of Polyimide Thin Films for Electronics. 433
David A. Lewis, Susan J. LaMaire, and Alfred Viehbeck
- Processing and Characterization of a Polymer Matrix Composite
Using Variable Frequency Microwave Heating. 441
Zak Fathi, Richard S. Garard, John Clemons, Craig Saltiel, R.M. Hutcheon, and
Mark T. DeMeuse
- Microwave Energy Versus Convected Hot Air for Rapidly Drying
Ceramic Tile 449
David A. Earl, D.E. Clark, and R.L. Schulz
- Densification of Large Size Alumina Objects by Continuous
Microwave Sintering 457
Jiping Cheng, Yi Fang, Dinesh K. Agrawal, and Rustum Roy
- Processing Parameters Influencing the Sintering of Alumina in a
Conventional and 14-GHz Microwave Furnace 465
D.J. Grellinger, J.H. Booske, S.A. Freeman, and R.F. Cooper
- Sintering of Alumina Ceramics in a Single Mode Cavity Under
Automated Control 473
Ki-Yong Lee, Eldon D. Case, Jes Asmussen Jr., and Marvin Siegel
- Sintering of Ceramics Using Low Frequency RF Power 481
J.B.O. Caughman, D.J. Hoffman, F.W. Baity, M.A. Akerman, S.C. Forrester,
and M.D. Kass
- Influence of Microwave Annealing on the Mechanical Properties of
Alumina Tiles 489
M.D. Kass, M.A. Akerman, F.W. Baity Jr., J.B.O. Caughman, S.C. Forrester,
R.A. Lowden, E.D. Brewer, W.J. Bruchey, E.J. Rapacki, and L.H. Tressler

Analysis of the Influence of Temperature Nonuniformity on Ceramic Sintering	497
K.I. Rybakov and V.E. Semenov	
Nucleation and Crystal Growth of $\text{Li}_2\text{O}\cdot 2\text{SiO}_2$ in a Microwave Field . . .	505
A. Boonyapiwat and D.E. Clark	
Temperature Measurement During Microwave Processing	515
Greg Darby, D.E. Clark, Robert Di Fiore, Diane Folz, Rebecca Schulz, Attapon Boonyapiwat, and David Roth	

Chemical and Reaction Synthesis

The Application of Microwaves to Rapid Chemical Synthesis	525
R. Gedye, K. Westaway, and F. Smith	
Microwave Synthesis of SiAlONs	533
M.D. Mathis, D.K. Agrawal, R. Roy, and R.H. Plovnick	
Microwave Induced Combustion Synthesis of Ceramic and Ceramic-Metal Composites	541
T. Yiin, M. Barmatz, H. Feng, and J. Moore	
Vibrational Spectroscopy of Silica Sol-Gel Components During Microwave Irradiation	549
M.D. Roth, R.R. Di Fiore, D.C. Folz, D.E. Clark, C. Wehlburg, J. Szczepanski, and M.T. Vala	
Microwave Synthesis of Aluminum Titanate in Air and Nitrogen	557
M.D. Mathis, D.K. Agrawal, R. Roy, R.H. Plovnick, and R.M. Hutcheon	
Microwave Synthesis of Nonoxide Ceramic Powders	565
J.G.P. Binner, N.A. Hassine, and T.E. Cross	

Current Issues and Future Activities

Obstacles and Remedies in Microwave Processing Research and Commercialization—An Open Forum	575
Wayne R. Tinga and Steven J. Oda	
World Congress on Microwave Processing	581
David A. Lewis	

Index	587
