

**Basic aspects of medical and dental lasers / Jeffrey G. Manni**

**ISBN 9781483402666**

**Tabla de contenidos**

Section 1: medical lasers

Section 2: laser-tissue interactions, effects, and therapeutics applications

Section 3: medical laser delivery systems

Section 4: optical fiber delivery systems

Section 5: argon lasers

Section 6: carbon dioxide lasers

Section 7: semiconductor diode lasers

Section 8: erbium lasers

Section 9: holmium lasers

Section 10: light-emitting diodes (LEDs)

Section 11: free-running, pulsed Nd: YAG lasers (1064 nm)

Section 12: lasers vs. electro-surgical instruments
