

Sterility, Sterilisation and Sterility Assurance for Pharmaceuticals. 1st Edition /
T. Sandle

ISBN 9781907568381

Sterility, sterilisation and microorganisms;
Pyrogenicity and bacterial endotoxin;
Regulatory requirements and Good Manufacturing Practices (GMP);
Gamma radiation;
Electron beam processing;
Dry heat sterilisation;
Steam sterilisation;
Gaseous sterilisation;
Hydrogen peroxide vapour sterilisation;
Sterilisation by filtration;
Other methods of sterilisation;
Depyrogenation and endotoxin;
Cleanrooms, isolators and cleanroom technology;
Aseptic processing and filling;
Media simulation trials;
Cleaning and disinfection of sterile processing facilities;
Biological indicators;
The Sterility Test;
Investigating sterility test failures;
Auditing sterilisation processes and facilities.
