

A first course on wavelets / Eugenio Hernández, Guido Weiss

ISBN: 0849382742

Contents

1. Bases for L
2. Multiresolution analysis and the construction of wavelets
3. Band-limited wavelets
4. Other constructions of wavelets
5. Representation of functions by wavelets
6. Characterizations of function spaces using wavelets
7. Characterizations in the theory of wavelets
8. Frames
9. Discrete transforms and algorithms
